

Independent Contractor Agreement

Aari Realty LLC

Licensed Real Estate Brokerage

Fort Myers, Florida

AARI REALTY LLC

Version 6

Effective September 8, 2026

INCORPORATED DOCUMENTS

- Independent Contractor Agreement (ICA)
 - Commission Structure Addendum (CSA)
 - Exhibit A: Commission Fee Schedule
 - Operations & Compliance Manual
 - Fair Housing Policy (§56)
 - Advertising Policy (§57)
 - Social Media Policy (§58)
 - Errors & Omissions Addendum (§60)
 - Record Retention & Confidentiality (§61)
 - Recruiting Reward Policy (§62)
 - Indemnification & Defense Addendum (§72)
-

NOTICE & AMENDMENT: Written notice is delivered by any method set forth in Section 18. Unless a different effective date is stated, amendments take effect immediately upon notice. Continued affiliation after the effective date constitutes acceptance of all updated or newly incorporated documents.

INDEPENDENT CONTRACTOR AGREEMENT

DEF. DEFINITIONS

“Agreement” or “ICA”: This Independent Contractor Agreement, including all Incorporated Documents.

“Associate”: The real estate licensee who executes this Agreement.

“Broker” or “Company”: Aari Realty LLC, a Florida limited liability company.

“Business Day”: Any day other than Saturday, Sunday, or a federal holiday observed by the Company.

“Incorporated Documents”: All documents referenced in Section 18 and incorporated by reference into this Agreement, including the Commission Structure Addendum, Exhibit A: Commission Fee Schedule, Operations & Compliance Manual, and all policies and addenda.

“Notice”: Written communication delivered by any method set forth in Section 18. Notice is deemed delivered immediately upon sending or posting.

“Written” or “Writing”: Includes email, electronic communications, digitally executed documents, and physical documents bearing original or electronic signatures.

“Immediately” means without delay and, where a specific deadline is stated in Section 85 of the Operations and Compliance Manual, within that deadline. No general or default reporting period applies in place of a Section 85 deadline.

§1. Independent Contractor Relationship

The Associate is engaged as an independent contractor, not an employee. The Broker will not withhold taxes, provide employee benefits, or control the Associate’s daily work schedule. The Associate is solely responsible for tax filings, business expenses, professional tools, transportation, and maintaining required insurance. The Associate must complete a W-9 form and will receive a 1099-NEC for tax purposes.

Broker retains authority to direct compliance with legal and regulatory obligations under Florida Statute Chapter 475 and FREC rules, without altering the Associate’s independent contractor status.

No Authority to Bind

Except as expressly authorized in Section 55 (Broker Execution & Review), the Associate has no authority to bind the Company, enter contracts, or incur obligations on the Company’s behalf. Section 55

sets out the limited categories of documents an Associate may execute on behalf of the Company, the required signature format, and the categories that require Broker execution. Authority beyond those categories requires a specific written authorization executed by the Broker for the transaction in question, which may be granted or withheld in the Broker's sole discretion. The Associate remains personally liable for any commitment made outside the scope of Section 55 or a written authorization.

§2. Exclusive Brokerage Affiliation

The Associate affirms they are not licensed with, registered under, or actively affiliated with any other real estate brokerage. Florida law permits a sales associate to be registered under only one broker at a time.

For purposes of this Section, "brokerage activity" means any act that requires a Florida real estate license under Chapter 475, Florida Statutes, including listing, selling, buying, leasing, auctioning, exchanging, or negotiating the sale, purchase, or lease of real property for another and for compensation, and any equivalent act requiring a real estate license in another jurisdiction.

Brokerage activity does not include: (a) transactions in which the Associate or a related party is a principal and no compensation is earned for representing another party; (b) ownership, management, or investment in real property the Associate owns, subject to Section 80; (c) holding a license or registration in another regulated field, including mortgage, insurance, title, appraisal, or property management, provided the Associate does not perform real estate brokerage activity under it; or (d) employment or contracting in a role that does not require a real estate license.

Limited outside affiliations, including referral-only licenses or registrations in other states, require prior written approval from the Broker. The Associate must request approval in writing before affiliating, and the Broker shall respond in writing within ten (10) business days. Silence does not constitute approval.

Engaging in unapproved brokerage activity constitutes grounds for immediate termination for cause. The Company may withhold pending commission disbursements while it determines whether the activity caused loss to the Company, and may offset any documented actual loss, including regulatory fines, claim costs, and legal fees, against amounts otherwise payable. Any amount withheld and not applied to a documented loss shall be released to the Associate within thirty (30) days of the Company's written determination, and in any event within ninety (90) days of the initial withholding unless the Broker provides written notice before that date stating the specific reason the withholding must continue.

§3. Associate Responsibilities

The Associate shall:

Licensure

Maintain an active Florida real estate license at all times and remain in compliance with continuing education and renewal requirements.

Compliance with Laws and Rules

Comply with all applicable Florida Statutes, FREC Rules, MLS Rules, the NAR Code of Ethics, and all Company policies.

Laws, administrative rules, MLS rules, and industry practice standards change. The Associate's obligation is to comply with each requirement as it exists at the time of the transaction, not as it may be described in this Agreement or any Incorporated Document. Where a requirement referenced in this Agreement is amended, superseded, stayed, vacated, or repealed, the current requirement governs and this Agreement is read accordingly. The Company publishes current compliance guidance in the Agent Hub. Lack of awareness of a change is not a defense to a violation.

Incorporated Documents

Abide by all documents incorporated by reference, including but not limited to the Commission Structure Addendum, Exhibit A: Commission Fee Schedule, Operations & Compliance Manual, and all other written policies issued by the Company.

Deadlines & Technology Protocols

Follow all compliance deadlines, document submission requirements, and technology protocols as directed by the Company.

Cybersecurity & Data Breach Reporting

Report any suspected or actual data breach in accordance with the reporting deadlines in Section 85 of the Operations and Compliance Manual.

Data Breach Liability

If an Associate's negligence, willful misconduct, or violation of Company cybersecurity protocols causes or contributes to a data breach, the Associate shall be liable for resulting damages, provided that Associate liability shall not apply to losses caused by: (i) third-party breaches beyond the Associate's reasonable control; (ii) failures in Company-provided technology infrastructure; (iii) acts or omissions of Company employees, officers, or agents; or (iv) events occurring after the Associate has complied with all applicable data breach reporting requirements.

Client Funds and Escrow

Aari Realty LLC maintains no escrow or trust account. The Associate must never accept, receive, hold, transport, deposit, endorse, or take possession of any client funds in any form, including earnest money, rent, security deposits, option fees, cash, checks, money orders, wires, or electronic payments. All funds move directly from the client to the escrow agent, title company, or closing attorney designated in the contract. Violation is a Material Breach and may result in immediate termination and reporting to DBPR. The complete requirements, including written verification deadlines and the performance hold, are set forth in Section 76.

Federal Reporting Designations

The Associate has no authority to accept, sign, initial, or agree to any designation agreement, reporting assignment, or written arrangement that places a federal reporting obligation on Aari Realty LLC or on the Associate. Requests of this kind commonly come from title companies, closing agents, or attorneys at or near closing. Any such request must be forwarded to the Broker unanswered. Unauthorized acceptance is a Material Breach. The complete requirements are set forth in Section 77.

Wire Safety

Associates must not transmit wire transfer instructions via email or text. All wire instructions must be verbally confirmed by the client directly with the title company. Any violation constitutes an immediate termination event and may result in withheld commissions and disciplinary action.

MLS Compliance

The Associate must comply with the listing submission, cooperation, and public marketing rules of each MLS in which the Associate participates, as those rules exist at the time of the transaction. The applicable MLS defines what constitutes public marketing, what triggers the submission obligation, and the deadline that applies. Those definitions and deadlines vary by board and are published by each board. The Associate is responsible for knowing and following the current rule of every board in which the Associate participates.

Where a seller directs that a property not be submitted to or publicly marketed through an MLS, the Associate must satisfy that MLS's own requirements for the election before any advertising of the property occurs. Some boards require a signed owner agreement or written notice to be filed with the board itself, and a document held only in the Company's file does not satisfy that requirement. The Associate must complete the board's process and upload proof of the board filing, together with the seller's written instruction, to the compliance platform.

Company file completion (not an MLS deadline): Listing-agreement upload to the Company's compliance platform is governed by Section 65.

Broker notice: any MLS inquiry, citation, fine, complaint, or disciplinary communication must be reported to the Broker within twenty-four (24) hours.

Fine responsibility: any fine, penalty, or sanction imposed by any MLS as a result of the Associate's violation is the Associate's sole financial responsibility, and the Company may offset amounts it pays on the Associate's behalf against future commission disbursements. Offsets under this Section are subject to the caps, notice requirements, and release deadlines stated in Section 7, Section 10, and Section 72, as applicable to the underlying obligation.

Social Media & Advertising

Any advertising or marketing that uses the Company's name, branding, or implies affiliation requires prior written Broker approval, except where Associates use pre-cleared Company templates.

TCPA Compliance

Associates must comply with all federal and state laws governing telemarketing, text messaging, and electronic communications, including maintaining documentation of client consent, as further governed by Section 84 of the Operations and Compliance Manual.

Auto Insurance

Insurance and safety requirements, including auto insurance minimums for transporting clients, are defined in the Operations & Compliance Manual.

Transaction Coordination

File organization and transaction coordination services are provided through Aari Transactions LLC, an affiliated entity. Transaction coordination is mandatory during the period stated in Section 38.3 and optional thereafter. The Associate bears the cost and the client is not charged for transaction coordination.

§4. Fair Housing Compliance

The Associate must comply with the Federal Fair Housing Act, the Florida Fair Housing Act (Chapter 760, Florida Statutes), the Americans with Disabilities Act, and all applicable local fair housing ordinances, as those laws exist at the time of the conduct.

This obligation applies to every form of communication in which the Associate engages in connection with real estate services, including MLS remarks and listing content, advertising and marketing in any medium, websites and social media, written and verbal communications with clients, customers, and cooperating licensees, and the manner in which the Associate describes properties, neighborhoods, schools, demographics, or safety.

MLS remarks and advertising copy are the most common source of fair housing violations, and both are distributed to the public automatically. The Company may correct, modify, or remove any listing content, advertisement, or marketing material that in the Broker's determination presents a fair housing risk, without prior authorization from the Associate, and will notify the Associate when it does so.

The Associate must complete fair housing training and submit proof to the Broker within fourteen (14) days of affiliation, and may not accept client representation until proof is submitted. Training offered by the National Association of REALTORS, Florida Realtors, a local REALTOR association, or a Florida-approved continuing education provider satisfies this requirement. The Broker may designate a specific provider in writing, in which case the Associate must use it. The complete Fair Housing Policy, including the list of prohibited conduct, is set forth in Section 56.

Violation may result in immediate termination and reporting to FREC and the U.S. Department of Housing and Urban Development.

§4A. Antitrust Compliance

Commissions, fees, and compensation charged to clients are negotiable and are not fixed, controlled, recommended, or mandated by the Company. The amount or rate of compensation is determined solely through negotiation between the Associate and the client. Nothing in this Agreement, any Incorporated Document, or any Company meeting, training, or communication requires the Associate to charge any specific rate, minimum fee, or pricing structure. The Associate must independently determine compensation terms in each transaction and must avoid any discussion or conduct that could be construed as price fixing, market allocation, or other anticompetitive behavior.

The Associate must not:

- (a) discuss commission rates, fee structures, or business practices with licensees affiliated with any other brokerage;
- (b) reference a prevailing, standard, customary, or typical commission rate to any client or third party;

(c) agree with any competitor to refuse to show, cooperate with, or compensate any brokerage based on that brokerage's business model or fee structure.

Any inquiry from a competitor regarding Company rates or practices must be reported to the Broker.

§5. Confidentiality

Definition of Confidential Information

“Confidential Information” includes all non-public information belonging to the Company or its clients, whether disclosed in written, oral, electronic, or digital form, including client lists, leads, pricing strategies, commission structures, proprietary training materials, business plans, Company records, technology systems, and compliance protocols.

Use Restriction

The Associate shall use Confidential Information solely to complete transactions on behalf of clients procured through the Company and to perform the Associate's obligations under this Agreement. Any other use requires the Company's prior written consent. Confidential Information may not be copied, retained, disclosed, or used for personal gain or for the benefit of any other brokerage, competitor, or third party without the Company's prior written consent.

Post-Termination Restrictions

Upon termination, the Associate must: (a) immediately cease use of Company-Generated Leads as defined in Section 9, all Company lead sources, and all proprietary systems; and (b) continue to maintain confidentiality of trade secrets, pricing structures, business strategies, and non-public Company information.

Company property return deadlines are set forth in Section 13.

This Section does not restrict the Associate's use of contact information and transaction history for Personally Generated Clients as defined in Section 9. The Associate may retain and use that information to continue serving those clients, provided the information is not disclosed to any other brokerage or competitor and is not used to solicit any client the Associate did not personally generate.

Enforcement Rights

Unauthorized use or disclosure of Confidential Information constitutes a material breach and entitles the Company to immediate injunctive relief, recovery of damages, and any other remedies available under

law or equity. In any action to enforce this Section, whether brought by the Company or the Associate, the prevailing party is entitled to recover reasonable attorneys' fees and costs.

Survival

Confidentiality obligations survive termination indefinitely as to trade secrets, client data, proprietary business information, and any information protected under applicable state or federal law.

§6. Errors & Omissions (E&O) Insurance

The Broker maintains an Errors & Omissions policy covering professional services. The Associate is included at no upfront cost but agrees to pay the retention or deductible attributable to the Associate's conduct. The Associate's obligation for any single covered matter shall not exceed the retention or deductible amount stated in the Company's policy declarations in effect on the date of the wrongful act giving rise to the claim. Where more than one Associate's conduct contributes to a claim, the retention shall be allocated proportionally based on each party's degree of fault as reasonably determined by the Broker, or as determined by the carrier or legal counsel. The Company shall offer the Associate a written payment plan option of not less than ninety (90) days for any amount exceeding the payment plan threshold set forth in Exhibit A, unless the Associate requests immediate payment or a shorter period, or the underlying conduct involves fraud, conversion, or criminal conduct. Offsets under this Section are subject to the caps, notice requirements, and release deadlines stated in Section 7, Section 10, and Section 72, as applicable to the underlying obligation.

Associates must report potential claims immediately (meaning within twenty-four (24) hours of receipt or discovery), including demand letters, threats of claims, or service of process.

§7. Compensation

Commission Basis

The Associate shall be compensated solely through commissions in accordance with the Commission Structure Addendum ("CSA"), as amended from time to time. The CSA governs commission calculation, application order, offsets, and disbursement mechanics, while Exhibit A: Commission Fee Schedule governs commission plans, splits, fees, pricing, thresholds, and billing schedules.

Conditions Precedent to Payment

A commission is earned when the conditions stated in the Commission Structure Addendum, Section 23, are satisfied. Those conditions govern and this Agreement does not restate them. Once earned, a

commission is payable to the Associate subject to completion of Company compliance review, the Associate's Good Standing, satisfaction of financial obligations owed to the Company, and application of applicable offsets under this Section. Good Standing affects when an earned commission is paid. It does not affect whether the commission was earned. A commission earned before the Associate falls out of Good Standing remains owed and is released when Good Standing is restored, subject to any offset the Company is otherwise entitled to apply.

Commission Timing

Commission is disbursed to the Associate within three (3) business days after all Conditions Precedent to Payment stated above are satisfied. The three business day period begins on the date the last of those conditions is satisfied. Where the Associate has elected split disbursement under §67.2 and all conditions are met, the Associate's share is disbursed by the settlement agent at closing and this timing provision applies only to any remaining amount payable by the Company.

The Broker may extend disbursement beyond three business days by written notice to the Associate stating the reason. An extension under this provision shall not exceed ten (10) business days unless the delay arises from a compliance issue, a dispute, or an offset that the Broker identifies in the notice, in which case the extension continues until that matter is resolved. Notice of extension does not constitute a breach of this Agreement.

Abandoned Commissions

Associate must submit the completed compliance file and all commission disbursement documents within forty-eight (48) calendar hours after the closing date shown on the settlement statement. A transaction for which the compliance file and disbursement documents are not submitted within this period, or which is deemed an Abandoned Commission under Section 69.2, is subject to the Administrative Processing Fee set forth in Exhibit A.

Post-Termination Commissions

Commissions are payable only on transactions supported by a fully executed purchase-and-sale agreement dated before termination or inactivation, and remain subject to file completion, Broker approval, cleared funds, and offsets. This provision is subject to the Post-Termination Compensation Floor and its exclusion for transactions originating from Company-Generated Leads.

Post-Termination Compensation Floor

For transactions with fully executed purchase-and-sale agreements dated before termination where the Associate performed the material duties of the transaction prior to termination, meaning the Associate secured the executed purchase-and-sale agreement and remained the representing licensee of record through the date of termination, the Company shall disburse not less than fifty percent (50%) of the net commission otherwise due (after transaction fees and direct transaction-related offsets only) within thirty (30) days of closing, provided that: (i) the Associate submits available transaction documents within ten (10) business days of the Company's written request; (ii) the Associate, within five (5) business days of the Broker's written request, responds in writing and provides the specific transaction documents, platform access, client contact information, or vendor contact information identified in that request, and signs and returns any Commission Disbursement Authorization or offset consent the Broker submits within five (5) business days of receipt; and (iii) no fraud, conversion, or Material Breach directly related to that transaction has occurred. This floor is the controlling minimum for post-departure compensation on transactions originating from Personally Generated Clients as defined in Section 9, and supersedes any contrary statement of Broker discretion elsewhere in this Agreement or any Incorporated Document as to those transactions. This floor does not apply to transactions originating from a Company-Generated Lead as defined in Section 9. Where an Associate terminates or is terminated before closing of a transaction originating from a Company-Generated Lead, the Associate has no right, title, or interest in any pending or future commission derived from that transaction unless the Broker agrees otherwise in writing. Lead classification for this purpose is determined under Section 9 and is subject to the appeal process stated there.

Good Standing

Good Standing means the Associate satisfies all of the following: (a) maintains a current, active Florida real estate license in good standing with DBPR; (b) has no outstanding fees, balances, or debts owed to the Company; (c) has no material policy violations or unresolved compliance issues; (d) maintains current proof of E&O insurance and auto insurance with the Company listed as additional insured when transporting clients; (e) complies with all document submission deadlines and file completion requirements; and (f) is not subject to any active suspension, investigation, or disciplinary action.

Personal Transactions

Personal transactions involving the Associate or a related party are permitted only with prior Broker approval and are subject to the applicable transaction fees and compliance requirements set forth in Exhibit A: Commission Fee Schedule.

Personal Transactions are excluded from the Company's Errors & Omissions coverage. The Associate is solely responsible for any resulting liability and is strongly encouraged to obtain individual coverage before proceeding.

Fees

All Company fees, pricing, commission schedules, transaction fees, compliance fees, administrative charges, and billing timing are governed exclusively by Exhibit A: Commission Fee Schedule.

Overpayments & Deductions

Any overpayment must be repaid within five (5) business days of notice. The Associate authorizes the Company to deduct unpaid balances, overpayments, fees, fines, or obligations from any commission disbursement, provided that: (i) offsets shall not exceed fifty percent (50%) of any single commission disbursement without the Associate's prior written consent, except where the underlying obligation relates to that specific transaction; (ii) the Company shall provide written notice of any offset at least three (3) business days before disbursement; and (iii) for offsets exceeding fifty percent (50%), the Company shall offer a written payment plan option of not less than ninety (90) days.

§8. Transaction Compliance

The Associate must comply with all requirements set forth in the Operations & Compliance Manual, including the transaction documentation and file submission requirements in §50 and §51. All documents must be submitted in the compliance platform by the deadlines specified. Failure to comply may result in withheld commissions, suspension, or termination. Where commissions are withheld under this Section, the Company may offset documented actual losses arising from the non-compliance and shall release any remaining amount within thirty (30) days of the Associate curing the deficiency. Fees and retention applicable to incomplete files, including escalation for files that remain incomplete after closing, are set forth in Exhibit A. Compliance affects when an earned commission is released for payment. It does not affect whether the commission was earned, which is governed by the Commission Structure Addendum, Section 23.

§9. Client Ownership

Personally Generated Clients

A client is a Personally Generated Client where the Associate originated the relationship through the Associate's own marketing, prospecting, sphere of influence, past client relationships, or personal

referrals, without use of any Company-Generated Lead, Company advertising, Company lead source, or Company-funded marketing. Personally Generated Clients remain the Associate's property, subject at all times to this Agreement, the Commission Structure Addendum, and Company policies.

A relationship that predated the Associate's affiliation with the Company qualifies as personally generated only if the Associate disclosed and documented it with the Broker in writing at the time of affiliation or within ten (10) business days of affiliation. A relationship originated after affiliation qualifies without a disclosure deadline, provided the Associate can demonstrate the source on request.

Company-Generated Leads

A Company-Generated Lead is any prospect, buyer, seller, landlord, or tenant generated, provided, routed, assigned, or funded by the Company, including leads from Company advertising, Company-purchased lead programs, Company websites, Company social media, Company phone numbers, walk-ins, open houses on Company listings, relocation programs, referral partnerships, and any other Company-funded lead source. Company-Generated Leads are Company property and are assets generated through Company investment, marketing expenditure, and infrastructure.

The Broker determines lead classification based on source documentation, timestamp of first contact, and inquiry method. The Broker shall identify a lead as a Company-Generated Lead in writing at the time the lead is assigned to the Associate. A lead not identified in writing as Company-Generated at the time of assignment is presumed to be a Personally Generated Client for purposes of the Post-Termination Compensation Floor in Section 7. The Broker may rebut the presumption only by producing source documentation predating the assignment that establishes the lead's Company-Generated origin; the Associate may respond and pursue the appeal process in the Lead Classification Appeal Process paragraph and, if the Broker's determination is adverse, may pursue a claim under Section 15. Leads assigned to an Associate before the effective date of this provision are classified under the rule in effect at the time of assignment. This Section applies to leads assigned on or after that date. Compensation on Company-Generated Leads is governed by the Commission Structure Addendum and Exhibit A.

Lead Classification Appeal Process

If an Associate disputes a lead classification determination, they may submit a written appeal to the Broker within thirty (30) calendar days, including all supporting documentation. The Broker shall issue a written response within ten (10) business days of receiving the appeal. The Broker's written determination after review of the appeal is final for internal administrative purposes and is not subject to further internal review. Nothing in this Section waives the Associate's right to pursue a claim under Section 15.

§10. Referral & Co-Agent Commission Disputes

Reporting obligations for claims, demands, complaints, investigations, and proceedings, including those involving a commission, are set forth in Sections 60, 65, and 72.

The Company is not responsible for resolving referral or co-agent disputes unless: (i) the agreement is in writing, (ii) signed by all parties, and (iii) approved by the Broker. Disputes must be resolved pursuant to MLS and NAR arbitration rules. Where a third party asserts a claim to any portion of a commission, the Company may withhold the amount actually in dispute pending resolution. The undisputed portion is disbursed to the Associate in the ordinary course under Section 67. The Company shall notify the Associate in writing within five (5) business days of initiating a withholding under this Section, stating the amount withheld, the party asserting the claim, and the basis for the claim. Where no arbitration, mediation, or legal proceeding has been initiated within ninety (90) days of the withholding, the withheld amount is released to the Associate unless the Broker provides written notice before that date stating the specific reason the withholding must continue and the expected resolution timeframe. Where the amount withheld exceeds fifty percent (50%) of the total commission and no arbitration, mediation, or legal proceeding has been filed, the Company shall provide the Associate with a written statement of the basis for the amount withheld within five (5) business days of the withholding.

Decision to Pursue or Defend. The Broker decides whether the Company pursues or defends any procuring cause claim, arbitration, mediation, or legal action involving a commission, and that decision rests in the Broker's sole discretion. The Associate may not initiate, file, or respond to any such proceeding on the Company's behalf.

Where the Associate requests that the Company pursue a claim and the Broker declines, the Associate may request in writing that the Company pursue it at the Associate's expense. If the Broker consents, the Associate is responsible for all arbitration fees, filing fees, legal fees, expert fees, and related costs, regardless of outcome, and any recovery is disbursed to the Associate after deduction of those costs, the Company's transaction fee, and any amount the Company would otherwise be entitled to under the Associate's commission plan. Consent may be granted or withheld in the Broker's sole discretion, and the Broker may condition consent on the Associate depositing estimated costs in advance.

Where the Company pursues or defends a claim on its own decision, the allocation of internal administrative time and outside legal costs is governed by Section 46.

§11. Indemnification

The Associate agrees to indemnify, defend, and hold the Company harmless from claims, damages, losses, liabilities, fines, penalties, and costs arising out of the Associate's acts, omissions, negligence, misrepresentation, or misconduct in the performance of real estate services; the Associate's failure to comply with applicable law, FREC rules, MLS rules, or Company policies; unauthorized promises or agreements the Associate makes to clients, cooperating brokers, or third parties; and disputes or penalties arising from incomplete, inaccurate, or untimely documentation.

This obligation does not extend to claims arising solely from the Company's own negligence or willful misconduct.

The Company or its E&O carrier controls the defense and selection of counsel for any covered matter. The Associate must notify the Broker in writing within twenty-four (24) hours of any demand, complaint, investigation, or threatened claim and must cooperate fully in the investigation and defense.

The Company may withhold commissions to cover a claim, subject to the cap, the written documentation requirement, and the release deadlines stated in Section 72. This obligation survives termination.

The complete indemnification, defense, and offset terms are set forth in Section 72, which controls.

§12. Term & Termination

Term

This Agreement begins on the Effective Date and continues until terminated by either party under this Section. There is no minimum term and no renewal requirement. Fee billing cycles run from the Associate's onboarding anniversary date and are governed by Exhibit A.

Termination At-Will

Either party may terminate this Agreement at any time, with or without cause, upon written notice. Termination shall be effective immediately upon delivery of such notice. Termination shall not affect the Broker's right to collect any earned but unpaid fees, commissions, transaction charges, or other amounts due under this Agreement. All provisions relating to compensation, file retention, compliance, confidentiality, recordkeeping, and any obligations that by their nature are intended to survive termination shall survive termination of this Agreement.

§13. Post-Termination Obligations

Upon termination of this Agreement, the Associate must: cease all use of Company logos, branding, templates, and platforms; complete all outstanding compliance file requirements; reconcile commissions in accordance with the CSA; and update all online profiles within five (5) calendar days to remove Company affiliation.

Upon termination the Associate must return Company property on the following schedule:

(a) Within twenty four (24) hours: all access credentials and passwords, lockbox and Supra eKey access, and all physical keys, access codes, and entry devices for any property listed with or managed by the Company.

(b) Within three (3) business days: all signage, marketing materials, printed inventory, business cards, and all other physical Company property.

(c) Within five (5) business days: written certification that all electronic Company materials, including client data, transaction files, and contact records, have been deleted from all personal devices, cloud storage, and email accounts, excluding materials the Associate is required by law to retain.

File completion obligations remain governed by Section 69.2 of the Operations and Compliance Manual.

Client Ownership After Termination

The Associate may continue working only with clients they personally generated, provided they remain in compliance with this Agreement, the CSA, and post-termination obligations. The Associate has no rights to Company-generated leads, referrals, relocation clients, or advertising-sourced prospects after termination. Any attempt to divert or solicit Company-generated leads post-termination constitutes a material breach.

Compensation After Termination

Commissions on transactions supported by a fully executed purchase-and-sale agreement dated before termination remain payable subject to file completion, Broker approval, cleared funds, and offsets. Where the transaction originated from a Personally Generated Client as defined in Section 9, the Post-Termination Compensation Floor in Section 7 guarantees a minimum share, subject to the conditions stated there. That floor does not apply to transactions originating from a Company-Generated Lead as defined in Section 9. The complete terms are set forth in Section 7, which controls.

Survival

All confidentiality, indemnification, non-solicitation, payment, and post-termination commission obligations expressly set forth in this Agreement and the CSA shall survive termination and remain

enforceable.

§14. Non-Solicitation

During affiliation and for twelve (12) months after termination, the Associate shall not directly or indirectly solicit or recruit Aari Realty Associates, staff, or contractors to leave the Company. For purposes of this section, “solicitation” means any direct, targeted outreach to a specific individual for the purpose of inducing them to terminate or reduce their affiliation with the Company. General public advertising that is not targeted at specific Company Associates does not constitute solicitation.

For twelve (12) months after termination, the Associate shall not directly or indirectly solicit, contact for the purpose of soliciting, or accept real estate business from any client, customer, or prospect that came to the Associate as a Company-Generated Lead as defined in Section 9, except where the Broker consents in writing. This restriction does not apply to Personally Generated Clients as defined in Section 9, which the Associate may continue to serve without limitation. This restriction does not prohibit general public advertising that is not targeted at specific individuals, and does not prohibit the Associate from responding to an unsolicited contact initiated by the client, provided the Associate did not directly or indirectly induce that contact. Compensation rights during any contractual protection period are separately governed by Section 73.

§15. Dispute Resolution

Written Notice Required First

For any dispute arising under this Agreement or any Incorporated Document, the Associate must submit a written dispute notice to the Broker within thirty (30) calendar days of the date the Associate knew or reasonably should have known of the disputed determination. Failure to submit a timely written dispute notice waives the Associate’s right to the internal review and appeal process stated in this Section. It does not waive or shorten any claim the Associate may have under this Agreement or applicable law, and does not alter any limitations period established by law.

Broker Review

Upon receipt of a written dispute notice, the Broker shall review the matter and provide a written response within ten (10) business days. The Broker’s determination is final for internal administrative purposes.

Mediation First

The parties shall first attempt good-faith mediation in Lee County, Florida before a neutral mediator mutually selected within ten (10) business days of the Broker's written response. Each party shall bear their own costs. The cost of the mediator shall be split equally.

Litigation

If mediation does not resolve the dispute within thirty (30) days of the mediator's appointment, either party may commence an action in the state or federal courts located in Lee County, Florida. Both parties consent to the exclusive jurisdiction and venue of those courts and waive any objection based on inconvenient forum. Nothing in this Section prevents either party from seeking injunctive or other equitable relief in those courts at any time, including before or during mediation, where necessary to prevent irreparable harm.

Attorneys' Fees

Each party shall bear its own attorneys' fees and costs, except that the mediator or the court may award fees and costs against a party that acted in bad faith or brought a frivolous claim. In any action to collect amounts owed under this Agreement or any Incorporated Document, whether brought by the Company or the Associate, the prevailing party is entitled to recover reasonable attorneys' fees and costs.

No Class Actions

All disputes shall be resolved on an individual basis. The Associate waives any right to participate in a class action, collective action, or representative proceeding. If any portion of this paragraph is held unenforceable, the remainder continues in effect, and the unenforceable portion shall be limited or severed to the minimum extent necessary to make the remainder enforceable.

Continued Performance

During the pendency of any dispute, the Associate shall continue to perform all obligations relating to transactions then in progress, including file completion, document submission, client service, and cooperation with the Broker. This Section does not require the Associate to perform obligations that are themselves the subject of the dispute, and does not prevent either party from terminating this Agreement under Section 12 while a dispute is pending.

Jury Trial Waiver

Both parties knowingly and voluntarily waive any right to a jury trial for any claim arising out of or relating to this Agreement or the Incorporated Documents, to the fullest extent permitted by law.

§16. Governing Law

This Agreement shall be governed by and construed under the laws of the State of Florida, without regard to conflicts of law principles.

§17. Force Majeure

Neither party shall be liable for failure to perform obligations under this Agreement when such failure is caused by events beyond their reasonable control, including but not limited to acts of God, natural disasters, hurricanes, war, terrorism, pandemic, epidemic, government orders, utility failures, or cyberattacks. During a force majeure event, affected deadlines shall be extended by the duration of the event plus a reasonable cure period not to exceed ten (10) calendar days. The party affected by a force majeure event shall provide written notice to the other party as soon as reasonably practicable, and in any event within forty-eight (48) hours of the event or within forty-eight (48) hours of the affected party's ability to communicate being restored, whichever is later. The affected party shall submit supporting documentation within five (5) business days of giving initial notice. This Section extends deadlines established by this Agreement and the Incorporated Documents only. It does not extend any deadline established by statute, by FREC rule, by an MLS, or by a third party, including reporting deadlines, escrow verification deadlines, and listing submission deadlines. The Associate remains responsible for those deadlines and must contact the applicable authority directly regarding any relief.

§18. Entire Agreement; Notice; Order of Precedence; No Assignment

Entire Agreement

This ICA, together with all Incorporated Documents listed at the beginning of this Agreement, constitutes the entire agreement between the parties. The Incorporated Documents are the Commission Structure Addendum, Exhibit A: Commission Fee Schedule, the Operations & Compliance Manual, the Fair Housing Policy (§56), the Advertising Policy (§57), the Social Media Policy (§58), the Errors & Omissions Addendum (§60), Record Retention & Confidentiality (§61), the Recruiting Reward Policy (§62), and the Indemnification & Defense Addendum (§72). Informational summaries, fee overviews, or marketing materials are non-binding and do not modify this Agreement, the CSA, or Exhibit A.

Modification and Notice

The Company may amend this Agreement and all Incorporated Documents at any time, effective immediately upon delivery of notice. Continued affiliation after notice constitutes acceptance of all updated terms. No mutual signature is required for amendments to Incorporated Documents, policies, fee

schedules, or addenda. The sole exception is that no amendment to commission rates, splits, transaction fees, or fee schedules shall alter the economic terms of any transaction supported by a fully executed purchase-and-sale agreement, listing agreement, or buyer brokerage agreement dated prior to the delivery of such notice.

Notice and Version Control

Amendments may be delivered by email to the Associate's email address on file, by posting in the Company's compliance platform, or by electronic acknowledgment. Notice is deemed delivered upon sending or posting. Amendments apply prospectively only. The Company shall maintain version control for this Agreement and all Incorporated Documents, including version numbers and effective dates, and shall make the current version and the version in effect on any prior date accessible to the Associate through the compliance platform or within three (3) business days of a written request.

Order of Precedence (General)

Where a conflict arises on any matter other than compensation, the following order controls: (i) this ICA; (ii) the Commission Structure Addendum; (iii) Exhibit A; (iv) the Operations & Compliance Manual; and (v) all other Incorporated Documents. Where two provisions address the same subject and one is more specific, the more specific provision controls over the more general, regardless of where each appears. Where two Incorporated Documents rank equally and neither is more specific, the later-dated document controls. Where an Incorporated Document expressly states that it supersedes this Agreement on a specific topic, that statement controls as to that topic only. Where a conflict cannot be resolved under this Section, the Broker shall determine the resolution in writing, and the Associate may contest that determination under Section 15.

Order of Precedence (Compensation Matters)

In the event of a conflict regarding compensation: (i) this ICA governs the legal relationship of the parties; (ii) the CSA governs commission calculation, application order, offsets, and disbursement mechanics; and (iii) Exhibit A governs commission plans, splits, fees, pricing, thresholds, and schedules.

No Assignment

Neither party may assign this Agreement or any rights hereunder without the prior written consent of the other party, except that the Company may assign this Agreement in connection with a merger, sale of assets, or change of control.

§19. Severability; No Waiver

Severability

If any provision of this Agreement is held invalid, illegal, or unenforceable by a court of competent jurisdiction, such determination shall not affect the validity or enforceability of any other provision. The invalid or unenforceable provision shall be modified to the minimum extent necessary to make it enforceable while preserving the parties' original intent.

No Waiver

The failure of either party to enforce any provision of this Agreement, or to exercise any right or remedy available under this Agreement, shall not constitute a waiver of that provision, right, or remedy. No waiver shall be effective unless made in writing and signed by the party granting the waiver.

§20. Consolidated Acknowledgment; Incorporation by Reference; Electronic Signatures

By executing this ICA, the Associate acknowledges and agrees to all Incorporated Documents listed above as they exist on the Effective Date and as amended from time to time in accordance with Section 18. Continued affiliation after notice of an amendment constitutes acceptance of the amended document. No separate signatures are required on any Incorporated Document.

Effective Date Definition

"Effective Date" means the date on which both parties have executed this Agreement. For Incorporated Documents, the effective date of updates shall be as specified in the notice of amendment, effective immediately upon delivery.

Electronic Signatures

Electronic signatures shall have the same force and effect as original signatures. The parties consent to conduct this transaction electronically and agree that electronic records shall satisfy any requirement for writings under Florida law, including Florida's Uniform Electronic Transactions Act (Chapter 668, Florida Statutes).

COMMISSION STRUCTURE ADDENDUM

Incorporated into and made part of the ICA between Aari Realty LLC (“Company”) and the affiliated independent contractor (“Associate”). Governs the calculation, application, timing, and disbursement of commissions, read together with the ICA and Exhibit A: Commission Fee Schedule.

§21. Purpose & Scope

This Addendum establishes the mechanics by which commissions are processed, applied, adjusted, and disbursed. Fee amounts, plan pricing, and billing schedules are governed exclusively by Exhibit A. Sections 34, 35, and 36 establish the transaction types to which fixed allocations apply and the order in which deductions are taken. The allocations, percentages, and fee amounts themselves are set forth in Exhibit A. No fee amount, percentage allocation, or price appears in this Addendum.

§22. Order of Precedence Within CSA

Order of precedence is governed by Section 18.

§23. Commission Earned vs. Commission Payable

No commission is considered earned by the Associate unless and until: (1) the transaction has closed; (2) all funds under the transaction have been received and cleared by their intended recipients (in the case of Company Disbursement, by the Company; in the case of Split Disbursement at Closing under §67.2, by the Company as to its fees and by the Associate as to the Associate’s share); (3) all required documentation has been submitted, reviewed, and approved; (4) all compliance, supervisory, and regulatory requirements have been met; and (5) the Broker has authorized release of funds. Compensation is earned only upon successful closing and receipt of funds by the Brokerage; preparation of offers, contracts, or other transaction documents does not constitute earned compensation.

A commission that is earned is not automatically payable. Payment is subject to completion of all Company-required compliance review, satisfaction of all financial obligations owed by the Associate, and application of all applicable offsets, deductions, and adjustments. The Company may delay disbursement to complete compliance review or resolve an outstanding issue affecting the amount payable, subject to the following: (a) the Broker shall notify the Associate in writing within three (3) business days of the delay, stating the specific issue and the action required to resolve it; (b) upon the Associate’s completion of the required action, disbursement shall be released within three (3) business days; and (c) where the

issue is not attributable to the Associate's action or inaction, the Company shall resolve it as promptly as practicable and, in any event, not later than thirty (30) days from the date the delay is initiated, absent a written extension stating the reason.

§24. Commission Application Order

All commissions shall be calculated and applied in the following order, unless otherwise required by law: (1) Broker-required compliance holds, if any; (2) referral obligations, if any, including referral fees owed to AARI Referrals LLC under Section 35 or to third-party referral networks under Section 36, calculated on gross commission before any other deductions; (3) Company transaction fees and charges as set forth in Exhibit A, deducted from the Company's remaining portion only for Referral-Sourced Transactions under Section 35; (4) offsets for outstanding balances owed by the Associate; and (5) net commission payable to Associate per applicable commission plan or fixed split. The Company's accounting determination shall be final absent manifest error. This provision governs the Company's calculation of a commission. It does not waive the Associate's right to dispute that calculation under Section 37 or Section 15. For Referral-Sourced Transactions, the commission application order set forth in Section 35.2 controls and supersedes this general order to the extent of any conflict.

§25. Offsets, Deductions & Withholdings

The Company is expressly authorized to offset, deduct, or withhold amounts from commissions payable to the Associate for: transaction fees, compliance fees, and administrative charges; unpaid invoices or balances; referral fees owed; returned payments or chargebacks; regulatory fines or penalties attributable to the Associate; and any other amounts owed under the ICA, this Addendum, or Exhibit A. This right of offset survives termination of the ICA.

For purposes of this Section, a fine or penalty is attributable to the Associate where it arises from the Associate's act, omission, or failure to comply with an obligation under this Agreement or applicable law. Where a fine arises from the conduct of more than one person, it is allocated proportionally. The Broker shall state the basis for attribution in writing at the time of the offset, and the Associate may dispute that determination under Section 37.

Offsets under this Section are subject to the caps, notice requirements, and release deadlines stated in Section 7, Section 10, and Section 72, as applicable to the underlying obligation. Nothing in this Section authorizes an offset in excess of those limits.

§26. Commission Plan Application

The commission plan applicable to any transaction is determined by the Associate's approved plan in effect at the time the transaction contract is executed, not at closing, and compliance with all eligibility requirements set forth in Exhibit A. Plan changes apply prospectively only and do not affect transactions already under contract.

§27. Referrals & Cooperating Compensation

All referral compensation is subject to written referral agreements, receipt and clearance of referral funds, and compliance with applicable laws and brokerage policies. Administrative fees and referral splits are governed by Exhibit A and any applicable referral entity agreements.

§28. Personal Transactions

A Personal Transaction qualifies only when the Associate's name, the Associate's spouse's name, or a business entity controlled by the Associate or the Associate's spouse appears on title as a principal to the transaction, determined at the time of contract execution and continuously maintained through closing. "Control" includes 50%+ ownership, contractual authority to bind or direct the entity, beneficial trust interest, LLC management authority, or any arrangement where the Associate can materially influence or benefit from the transaction beyond ordinary arm's-length participation. Personal Transactions receive no special commission treatment; the standard brokerage transaction fee and the Associate's standard commission split under their Commission Plan both apply, the same as any other transaction. This applies uniformly to Associates on all commission plans. The Company may require documentation to verify title ownership or control and retains sole discretion to determine qualification based on economic substance.

Personal Transactions are excluded from the Company's Errors & Omissions coverage. The Associate is solely responsible for any resulting liability and is strongly encouraged to obtain individual coverage before proceeding.

§29. License Status & Commission Rights

The Associate must hold an active license in good standing at all times during transaction negotiation, contract execution, closing, and commission disbursement. If the Associate's license is inactive, suspended, terminated, or disassociated prior to commission disbursement, compensation is not payable on any transaction in which the Associate performed licensed activity while the license was not active. Commissions earned on transactions in which all licensed activity was performed while the Associate was properly licensed remain payable and are released when the license is restored to active status, subject to any offset the Company is entitled to apply. The complete terms are set forth in Section 87, which

controls. The Associate must report any change in license status to the Broker within twenty-four (24) hours as required by Section 87.

§30. Independent Contractor Status

Nothing in this Addendum creates an employer-employee relationship; the Associate remains an independent contractor responsible for all taxes, withholdings, and statutory obligations.

§31. Survival

All provisions relating to commission calculation, offsets, payment obligations, enforcement, and dispute resolution survive termination of the ICA.

§32. Amendment

This Addendum may be amended by the Company effective immediately upon notice to the Associate by any method set forth in Section 18; amendments apply to all transactions not yet under a fully executed purchase-and-sale agreement, listing agreement, or buyer brokerage agreement as of the date of notice.

§33. Entire Agreement

This Addendum, together with the ICA and Exhibit A, constitutes the entire agreement between the parties with respect to commission structure, application, and disbursement.

§34. Internal Deal Handling & Compensation (Company Assisted Transactions)

A Company Assisted Transaction is any transaction in which the Broker assigns, reassigns, or redirects a client, listing, or pending transaction from one Associate to another for the purpose of protecting the client relationship, ensuring performance, or preserving the transaction. Upon reassignment, the transaction is deemed a brokerage controlled transaction and is no longer considered the original Associate's independent deal.

The Broker may initiate reassignment at their sole discretion, including for: failure to respond to client communication within forty-eight (48) hours of documented contact attempt; failure to execute requested pricing, marketing, or contractual updates within the timeframe specified by the Broker in writing; listing expiration risk due to inaction or delay; incomplete or non-compliant file management; inability to perform due to schedule, capacity, or external employment; client complaint or expressed dissatisfaction;

or Broker determination that reassignment is necessary to protect the transaction or the brokerage. The Broker's determination is final and does not require Associate consent.

The Broker shall provide written notice to the original Associate at the time of reassignment, stating the transaction reassigned, the reason for reassignment, and the effective date. An Associate who disputes a reassignment or the compensation consequences of a reassignment may do so under Section 37. Nothing in this Section waives that right. Reassignment under this Section and disciplinary action under the Operations & Compliance Manual are separate remedies. The Broker's election of one does not preclude the other, and does not constitute a waiver of any other remedy.

Upon reassignment: (1) the applicable flat transaction fee set forth in Exhibit A is deducted from the gross commission first; and (2) the remaining commission is split between Aari Realty LLC and the assigned Associate in the fixed allocation set forth in Exhibit A for Company Assisted Transactions. This allocation is fixed and applies regardless of the assigned Associate's standard commission plan; Mentorship Path, Aari Growth, or Aari Max does not apply to reassigned transactions. The assigned Associate is considered the servicing agent and assumes full responsibility for execution, communication, and completion of the transaction.

The original Associate is not entitled to compensation upon reassignment. Any compensation to the original Associate is solely at the discretion of the Broker, must be approved and documented in writing prior to closing, is paid from the brokerage portion of the commission only, and shall not reduce or impact the assigned Associate's compensation. No ranges, percentages, or guidance figures are established or implied by this Addendum.

A Referral is a voluntary transfer initiated by the Associate prior to performance failure or broker intervention and is subject to separate referral agreements, not governed by this Section. A Reassignment is a broker-initiated transfer due to performance concerns, risk, or operational necessity and is governed exclusively by this Section, never treated as a referral under any circumstance. The Broker retains full authority over classification, assignment of the servicing Associate, and compensation structure within the parameters outlined herein; all determinations made by the Broker are final and binding.

§35. Referral-Sourced Transactions (AARI Referrals LLC Leads)

§35.1 Definition and Classification. A Referral-Sourced Transaction is any transaction in which: (1) a lead or client is submitted to Aari Realty LLC by AARI Referrals LLC pursuant to a written referral agreement between the two entities; and (2) the Broker assigns the transaction to an Aari Realty LLC Associate for execution and completion. A Referral-Sourced Transaction is distinct from a Company

Assisted Transaction under Section 34; these are separate transaction types governed by separate rules, and a Referral-Sourced Transaction is not a reassignment and shall not be treated as one under any circumstance.

§35.2 Commission Flow and Application Order. For all Referral-Sourced Transactions, the gross commission received by Aari Realty LLC is distributed in the following fixed order, which is non-negotiable and may not be altered absent a written amendment to this Addendum: (1) **Referral Fee:** the referral fee percentage set forth in Exhibit A is paid to AARI Referrals LLC pursuant to the written referral agreement, calculated on gross commission before any deductions; (2) **Transaction Fee:** the applicable flat transaction fee set forth in Exhibit A is deducted from the remaining commission retained by Aari Realty LLC, from the Company's portion only, and does not reduce the referral fee or the assigned Associate's compensation; and (3) **Split:** the remaining commission after the referral fee and transaction fee is allocated between Aari Realty LLC and the assigned Associate in the fixed allocation set forth in Exhibit A for Referral-Sourced Transactions.

The flat transaction fees applicable to Referral-Sourced Transactions replace the standard plan-based transaction fees in Section 39.1 for these transactions. The assigned Associate assumes full responsibility for execution, communication, client service, and completion from the date of assignment; is not entitled to any portion of the referral fee paid to AARI Referrals LLC; and is not entitled to compensation under their standard commission plan for these transactions. The AARI Referrals LLC associate who submitted the referral has no claim to, and no right to receive, any portion of the transaction commission distributed under this Section; the referring associate's compensation is governed exclusively by the AARI Referrals LLC Referral Associate Agreement, Commission Structure Addendum, and Exhibit A: Fee Schedule.

No Referral-Sourced Transaction shall be processed or compensated under this Section unless a written referral agreement, fully executed by all required parties, is on file prior to closing; absent a written referral agreement, the transaction shall be treated as a standard transaction under the assigned Associate's commission plan. The Broker retains full authority over classification of a transaction as a Referral-Sourced Transaction, assignment of the servicing Associate, and verification that all documentation requirements have been satisfied prior to disbursement; all determinations made by the Broker are final and binding.

§36. Third-Party Referral Network Transactions

A Third-Party Referral Network Transaction is any transaction in which a lead or client is sourced through an external referral network or platform (including but not limited to Opcity, ReadyConnect Concierge, or any substantially similar service) and assigned to an Aari Realty LLC Associate by the Broker. These

transactions are distinct from Referral-Sourced Transactions under Section 35 and from Company Assisted Transactions under Section 34; each transaction type is governed by its own separate rules, and classification is determined solely by the Broker and is final and binding.

Prior to receiving any lead from a third-party referral network, the Associate must complete a written acknowledgment confirming they have reviewed the network's current terms of service, referral fee schedule, and performance requirements, signed and submitted before the Associate's first lead acceptance and renewed annually or upon material change to the network's terms, whichever occurs first. By accepting a lead from a third-party referral network, the Associate expressly acknowledges that the transaction is subject to the network's own agreement, terms of service, referral fee schedule, performance standards, and rules as amended from time to time, and that Aari Realty LLC does not control, modify, or guarantee the terms of any third-party referral network agreement.

The referral fee applicable to a Third-Party Referral Network Transaction is determined exclusively by the third-party network's current fee schedule at the time the lead is accepted. Aari Realty LLC makes no representations or guarantees regarding the referral fee percentage or amount, the consistency or continuity of the network's fee schedule, or lead quality, volume, or availability. After the third-party referral fee is paid, the remaining commission is distributed to the Associate under their standard commission plan as set forth in Exhibit A, including the applicable plan-based transaction fee under Section 39.1. The fixed allocations applicable to Company Assisted Transactions (Section 34) and Referral-Sourced Transactions (Section 35), as set forth in Exhibit A, do not apply to Third-Party Referral Network Transactions unless separately triggered by a reassignment event under Section 34.

The Associate agrees to comply with all rules, response time requirements, performance standards, and client communication obligations imposed by the third-party referral network; maintain active status and good standing with the network at all times during the transaction; notify the Broker immediately upon receipt of any notice of non-compliance, suspension, or removal from the network; and conduct all client interactions consistent with both the network's standards and Aari Realty LLC's Operations and Compliance Manual. Aari Realty LLC is not responsible or liable for changes to third-party referral fee structures, terms, or performance requirements; loss of lead access, network suspension, or removal from any third-party platform; lead quality, conversion rates, or transaction outcomes; or any dispute between the Associate and the third-party network; all such disputes are the sole responsibility of the Associate. The Broker retains full authority over classification of a transaction under this Section, eligibility of Associates to receive third-party referral leads, and removal of an Associate from third-party lead eligibility; all determinations made by the Broker are final and binding.

§37. Dispute Resolution (Commission Matters)

For any dispute arising out of or relating to commission calculations, fee deductions, split allocations, or any other compensation matter governed by this Addendum, the Associate must submit a written dispute notice to the Broker within thirty (30) calendar days of the date the Associate knew or reasonably should have known of the disputed calculation or determination. Failure to submit a timely written dispute notice waives the Associate's right to the internal review and appeal process stated in this Section. It does not waive or shorten any claim the Associate may have under this Agreement or applicable law, and does not alter any limitations period established by law. Upon receipt, the Broker shall review the matter and provide a written response, including the basis for the determination and any supporting documentation, within ten (10) business days. If the dispute is not resolved through the Broker's written response, either party may request non-binding mediation within thirty (30) days of the Broker's written response, conducted by a mutually agreed-upon mediator in Lee County, Florida, with each party bearing their own costs and the mediator's cost split equally. If mediation does not resolve the dispute, either party may commence an action in the state or federal courts located in Lee County, Florida, as provided in Section 15 of the Independent Contractor Agreement. Each party shall bear their own attorneys' fees and costs unless the mediator or the court determines that a party acted in bad faith. All disputes shall be resolved on an individual basis; the Associate waives any right to participate in a class action, collective action, or representative proceeding of any kind. During the pendency of any dispute, the Associate shall continue to perform all obligations relating to transactions then in progress, including file completion, document submission, client service, and cooperation with the Broker. This Section does not require the Associate to perform obligations that are themselves the subject of the dispute, and does not prevent either party from terminating this Agreement under Section 12 while a dispute is pending.

COMMISSION FEE SCHEDULE: EXHIBIT A

§38. Commission Plans

§38.1 Available Commission Plans

At onboarding, the Associate selects one of the three commission plans below as their initial commission plan of record. All three plans are available at signup, subject to Broker review and acceptance. Based on the Associate’s experience, supervision needs, compliance history, and regulatory risk profile, the Broker may require a newer or higher-risk Associate to begin on the Mentorship Path. After onboarding, an Associate may request to change plans under Section 38.3.

PLAN	INITIAL	SPLIT	TXN FEE (RESIDENTIAL)	TXN FEE (VACANT LAND)	DESCRIPTION
Mentorship Path	_____	75% / 25%	\$499	\$299	Full-support plan: transaction coordination, marketing, accountability, and 1:1 broker access.
Aari Growth	_____	85% / 15%	\$499	\$299	More independence, with deal support when you need it.
Aari Max	_____	100%	\$499	\$299	Fully independent, brokerage access only.

The Associate initials in the Initial column of the plan selected. The initial identifies the commission plan the Associate selects as their initial commission plan of record under this Section. A single initial is placed on one row only. The Associate does not initial the other two rows.

§38.2 Commission Plan Selection

At onboarding, the Associate selects one commission plan as their initial plan of record: Mentorship Path (75% Associate / 25% Company), Aari Growth (85% / 15%), or Aari Max (100%). The selected plan sets the Associate’s split under Section 38.1. The Quarterly Brokerage Fee is the same on every plan and is set forth in Section 41.1. Selection is subject to Broker review and acceptance; the Broker may place a newer or higher-risk Associate on the Mentorship Path in furtherance of the Broker’s supervisory obligations

under Florida law. The \$199 annual E&O + Compliance Fee applies to all plans. The selected plan remains in effect until changed under Section 38.3.

Service Credits. Associates on a commission plan in which the Company receives a percentage share of commission receive two (2) service credits per calendar month. Each credit is redeemable for one offer submission, one MLS listing input, or one listing paperwork preparation performed by Aari Transactions LLC. Credits do not roll over and expire at the end of the month in which they are issued. Credits do not apply to transaction coordination. Services beyond the monthly credits are available at the rates published by Aari Transactions LLC. Associates on a plan in which the Associate receives one hundred percent of commission do not receive service credits.

§38.3 Commission Plan Changes

Eligibility. An Associate may request a commission plan change only after completing a minimum of three (3) closed residential sales transactions, excluding rentals, vacant land, Personal Transactions, transactions originating from a Company-Generated Lead as defined in Section 9, and Referral-Sourced Transactions under Section 35, each with a fully compliant and completed transaction file, under Broker supervision at Aari Realty LLC. Until eligible and approved for a change, the Associate remains on the plan they selected at onboarding.

Transaction Coordination. Until the Associate has completed the three qualifying transactions stated above, the Associate must use Aari Transactions LLC for transaction coordination on every transaction. The coordination fee is the responsibility of the Associate and is deducted from commission proceeds at closing. The client is not charged for transaction coordination. After the third qualifying transaction, use of a transaction coordinator is optional unless the Broker requires it in writing for a specific transaction. Fees are set by Aari Transactions LLC and published in its current rate schedule.

Request Process. The Associate submits a written request to the Broker. The Broker will approve or deny in writing within five (5) business days. Approval is at the Broker's sole discretion based on compliance history, transaction quality, and performance. The Broker may deny a request without cause.

Plan Change Activation Date. An approved plan change takes effect on the first day of the calendar month following the Broker's written approval.

Transaction Protection. The Associate's current plan applies to all transactions under a fully executed purchase-and-sale agreement or listing agreement dated on or before the Broker's written approval date. Those transactions close under the original plan, no exceptions.

Frequency Limit. An Associate may not submit a new plan change request within sixty (60) days of their most recent Plan Change Activation Date.

Downgrade Rule. The same eligibility, process, activation date, and frequency limit apply in both directions. Moving from Aari Max back to Aari Growth requires the same process.

§38.4 Anniversary Plan Progression

The progression. The three commission plans form a progression. At each anniversary of the Associate’s affiliation with the Company, the Associate moves one step up the progression, in this order:

CURRENT PLAN	NEXT PLAN	WHEN
A plan carried over from a prior agreement	Mentorship Path, 75% / 25%	First anniversary
Mentorship Path, 75% / 25%	Aari Growth, 85% / 15%	Next anniversary
Aari Growth, 85% / 15%	Aari Max, 100%	Next anniversary
Aari Max, 100%	No further step	Top of the progression

One step per anniversary. A step under this Section moves the Associate to the next plan in the order above and no further. The Associate does not skip a step and does not take two steps in the same year. A step under this Section never moves the Associate to a lower Associate percentage.

The step takes effect at signature. A step under this Section takes effect at the moment the Associate executes the then-current version of this Agreement at their anniversary, and not on the date the Broker approves the step. Until that execution, the Associate’s plan of record, split, and fees remain those stated in the version of this Agreement the Associate has actually executed. An Associate already on Aari Max executes the then-current version at their anniversary with no change of plan and no change of split.

Adoption is not simultaneous. A revision of this Agreement takes effect for an Associate only when that Associate executes it. An Associate who holds an earlier version continues on the plan, split, and fee schedule stated in the version they executed until they execute a later one. Associates therefore hold different versions of this Agreement, and different fee schedules, at the same time. That is the intended operation of this Section and not an inconsistency.

Relationship to Section 38.3. Section 38.3 governs a plan change the Associate requests between anniversaries and operates separately from this Section. A step under this Section is not a request under Section 38.3: it does not require the qualifying transactions stated there, it does not use the Plan Change Activation Date stated there, and it does not count against the frequency limit stated there.

§39. Transaction Types and Transaction Fee Application

§39.1 Standard Transaction Fees (Per Side, All Plans)

TRANSACTION TYPE	TRANSACTION FEE (PER SIDE)	APPLIES TO
Residential Sale	\$499.00	All plans
Vacant Land Sale	\$299.00	All plans

§39.2 Commercial & Rental Transaction Fees

TRANSACTION TYPE	TRANSACTION FEE (PER SIDE)
Commercial Sale or Commercial Lease	\$499.00
Residential Rental — Landlord or Tenant Representation	\$299.00 or 10% of commission, whichever is less; minimum \$99.00

Residential Rental: the transaction fee is the lesser of \$299.00 or ten percent (10%) of the commission received on that side, and in no event less than \$99.00. The same rule applies to landlord representation and tenant representation.

Transaction and compliance fees are assessed per side for any transaction facilitated or processed under the Company's brokerage license. If the Associate represents both sides of a transaction where legally permitted, the applicable transaction fee applies to each side. If a transaction fee is not collected at closing, the Company may deduct the fee from commissions or invoice the Associate directly.

Payment and Collection of the Transaction Fee.

(a) Designated fee. The transaction fee stated in this Section is the Company's designated brokerage fee, per side. The Associate shall charge the client the Company's designated transaction fee and may not charge the client more than that designated amount.

(b) Collection. The Associate collects the designated fee from the client at closing where the client's signed listing or buyer brokerage agreement authorizes it and it is itemized on the Closing Disclosure. If the Associate does not collect the fee from the client, the Company deducts the designated fee from the Associate's commission or invoices the Associate directly.

(c) Overage. The Company's entitlement is limited to its designated fee. On the Associate's own transactions, if the amount collected as a transaction fee at closing exceeds the Company's designated fee,

the excess is paid to the Associate.

(d) Company-provided leads. On Referral-Sourced transactions under Section 35, the Associate charges the Company’s designated transaction fee and the fixed allocation set forth in Exhibit A for Referral-Sourced Transactions governs. Any additional transaction fee, or any bonus tied to the transaction, is also subject to that same allocation and is not retained by the Associate alone.

§39.3 Referral-Sourced Transaction Fees (AARI Referrals LLC Leads)

The following flat transaction fees apply exclusively to Referral-Sourced Transactions as defined in Section 35. These fees are separate from, and replace, the plan-based transaction fees in Section 39.1 for Referral-Sourced Transactions; the assigned Associate’s standard commission plan transaction fee does not apply.

TRANSACTION TYPE	FLAT TRANSACTION FEE	DEDUCTED FROM
Residential Sale	\$499.00	Aari Realty LLC portion only, after referral fee, before Company/Associate allocation
Vacant Land Sale	\$299.00	Aari Realty LLC portion only, after referral fee, before Company/Associate allocation

The transaction fee is deducted from the remaining commission retained by Aari Realty LLC after the referral fee is paid to AARI Referrals LLC. The transaction fee does not reduce the referring associate’s compensation or the assigned Associate’s 50% share.

Sample: Referral-Sourced Transaction (Residential). Sale Price: \$350,000 · Listing Commission: 3%.
Step 1: Gross Commission received by Aari Realty LLC: \$10,500.00
Step 2: Referral Fee (25% of Gross Commission) paid to AARI Referrals LLC: \$2,625.00
Step 3: Remaining commission retained by Aari Realty LLC: \$7,875.00
Step 4: Flat Transaction Fee (Residential) deducted from Aari Realty LLC portion: \$499.00
Step 5: Remaining after transaction fee: \$7,376.00
Step 6: Fixed 50/50 Split, Aari Realty LLC: \$3,688.00 · Assigned Agent: \$3,688.00
Illustrative only. Reflects the fixed allocation set forth in Exhibit A for Referral-Sourced Transactions, which overrides the assigned agent’s standard commission plan per Section 35.2. Does not create entitlement or guarantee payment.

§39.4 Company Assisted Transaction Allocation

For Company Assisted Transactions as defined in Section 34, after deduction of the applicable flat transaction fee, the remaining commission is allocated fifty percent (50%) to Aari Realty LLC and fifty

percent (50%) to the assigned Associate. This allocation is fixed and applies regardless of the assigned Associate’s commission plan.

§39.5 Referral-Sourced Transaction Allocation

For Referral-Sourced Transactions as defined in Section 35: the Referral Fee is twenty-five percent (25%) of gross commission, paid to AARI Referrals LLC before any deduction. After the Referral Fee and the applicable flat transaction fee are deducted, the remaining commission is allocated fifty percent (50%) to Aari Realty LLC and fifty percent (50%) to the assigned Associate. This allocation is fixed and applies regardless of the assigned Associate’s commission plan.

§39.6 Company Lead Transaction Allocation

For transactions originating from a Company-Generated Lead as defined in Section 9, after deduction of any referral fee and any marketing deduction approved in advance under Section 63, the remaining commission is allocated fifty percent (50%) to Aari Realty LLC and fifty percent (50%) to the Associate. This allocation is fixed and applies regardless of the Associate’s commission plan.

§40. Minimum Commission Allocation

Commission is negotiable and is not set, fixed, controlled, recommended, or required by Aari Realty LLC. The Associate determines all compensation terms directly with the client.

This Section applies to (a) all Associates operating under a commission plan in which the Company receives a percentage share of commission, which as of the date of this Exhibit means the Mentorship Path and Aari Growth plans, and (b) all Referral-Sourced Transactions, regardless of the Associate’s commission plan. This Section does not apply to transactions under a commission plan in which the Associate receives one hundred percent (100%) of commission, except where the transaction is a Referral-Sourced Transaction.

For the transactions described above, the Company’s minimum allocation per transaction is:

TRANSACTION TYPE	COMPANY MINIMUM ALLOCATION
Residential and Vacant Land Sales	2.5% of sales price
Residential Rentals	One full month of rent
Commercial Leases	2.5% of total lease value

If the compensation negotiated between the Associate and the client produces less than the Company's minimum allocation, the difference is absorbed entirely from the Associate's share of the commission. The Company's portion is not reduced. The applicable transaction fee under Section 39.1 or Section 39.3 continues to apply in full.

Nothing in this Section requires the Associate to charge any client a specific rate, minimum fee, or pricing structure.

§41. Annual and Ongoing Compliance Fees

§41.1 Quarterly Brokerage Fee

FEE	AMOUNT	BILLING SCHEDULE
Quarterly Brokerage Fee	\$99.00 per quarter	Billed quarterly, beginning the quarter after onboarding; applies to all plans

The Quarterly Brokerage Fee is \$99.00 per quarter on every commission plan. It does not vary by plan and it does not vary by split. Billing dates, the first quarter waiver, and the treatment of a billing cycle in which the Associate terminates are governed by Section 68.

§41.2 E&O + Compliance Fee

FEE	AMOUNT	BILLING SCHEDULE
E&O + Compliance Fee	\$199.00 per year	Billed annually on anniversary; applies to all plans

The E&O + Compliance Fee is invoiced approximately two (2) months prior to the Associate's anniversary month and is due on the first (1st) day of the anniversary month in subsequent years, as further described in the CSA. The fee is non-refundable.

At onboarding, only the E&O + Compliance Fee (\$199.00) is due today. Quarterly Brokerage Fee billing, including the first quarter waiver, is set forth in Section 68 and applied at the rate stated in Section 41.1 above. Both the E&O + Compliance Fee and the Quarterly Brokerage Fee apply to all Associates regardless of commission plan. Both fees are applied and enforced in accordance with the CSA.

§42. Administrative and Conditional Fees

FEE	AMOUNT
Personal Transaction (Residential)	\$499.00, same as standard
Personal Transaction (Land)	\$299.00, same as standard
Admin Cost Rate	\$250/hour
Administrative Processing Fee (per occurrence)	\$99.00
Late Document Upload (per occurrence)	\$49.00
File Not Submitted Until Closing or Later	\$199.00
File Completion Fee Cap (per transaction file)	\$199.00
Late CDA and Closing Documentation (14 days post-closing)	20% of gross commission
Late Payment Fee	\$25.00
Returned Payment Fee	\$25.00
Reactivation Fee	\$50.00
E&O Payment Plan Threshold	\$1,000.00

E&O Payment Plan Threshold: the amount above which the Company offers a written payment plan for a retention or deductible obligation under Section 6.

Grace Period: a five (5) calendar day grace period applies to all recurring fees (Quarterly Brokerage Fee and E&O + Compliance Fee). Late Payment Fee: \$25 applies to any balance outstanding after the grace period. Returned Payment Fee: \$25 per occurrence for NSF, chargebacks, or rejected payments.

Administrative Processing Fee: \$99.00 applies each time the Company receives, processes, disburses, or refunds funds outside of a standard sale closing, and each time the Company processes the cancellation, withdrawal, or termination of an executed listing agreement, buyer brokerage agreement, or purchase-and-sale contract. Triggering events include, by way of example and not limitation: a retainer or advance collected from a client; a cancellation fee collected by or on behalf of the Associate; a bonus, placement fee, or similar payment paid to the Company by a third party; and a tenant placement. Each triggering event is a separate occurrence and a separate fee. A transaction in which the Company processes a retainer and later processes a cancellation incurs two fees. This fee does not apply to any event on which a transaction fee under Section 39 is charged. Where a transaction fee applies, the transaction fee is the only

Company charge for that event. This fee therefore does not apply to a standard sale closing in which the Company receives its commission through the settlement agent, and does not apply in addition to the transaction fee on a completed rental, lease, or commercial transaction. Notwithstanding the exclusion above, this fee applies to any transaction deemed an Abandoned Commission under the Operations & Compliance Manual, whether or not a transaction fee was charged on that transaction. Failure to complete a file is a separate administrative event from the transaction itself. The fee is deducted from the Associate's next commission disbursement, or invoiced directly if no disbursement is pending.

File Completion. Documents must be uploaded to the compliance platform within the deadlines stated in the Operations & Compliance Manual. Failure to upload required documents within the applicable deadline carries a fee of \$49.00 per occurrence. Where a transaction file is not created or submitted until the date of closing or later, a fee of \$199.00 applies. Total file completion fees under this paragraph shall not exceed \$199.00 per transaction file.

Commission Disbursement Authorization. Where the Associate fails to submit all required closing documentation, including the Commission Disbursement Authorization, within fourteen (14) days following closing or the Company's receipt of commission funds, an administrative processing fee equal to twenty percent (20%) of the gross commission earned on that transaction applies and may be deducted from commission proceeds prior to disbursement. The Company shall notify the Associate in writing at least five (5) business days before assessing this fee, identifying the specific documents outstanding and the action required. No fee applies where the Associate has provided every document identified in the Company's written notice and the file remains incomplete for reasons outside the Associate's control. An Associate is entitled to one waiver of this fee at the Broker's discretion, upon signing an acknowledgment that this provision will be enforced on any subsequent occurrence.

This paragraph assesses fees against commission proceeds. It does not forfeit an earned commission. The Associate remains entitled to the balance of the commission after application of the fees stated here and any other offset the Company is entitled to apply.

§42.1 Administrative Cost Allocation.

Where the Company incurs internal administrative time or outside legal costs to secure or defend a commission under Section 46 of the Operations & Compliance Manual, internal administrative time is billed at the Admin Cost Rate stated in the fee table above. In transactions where the Associate receives ninety percent (90%) or more of the gross commission, cost allocation is capped at eighty percent (80%) of total costs incurred.

“Personal transaction” is defined in the CSA and ICA and includes transactions in which the Associate or a related party has a beneficial interest.

§43. Referral Compensation and Incentives

§43.1 Incoming Third-Party Referrals

Administrative Fee: 10% of the referral payment, subject to a minimum of \$100.00 and a maximum of \$499.00. In no event shall the fee exceed the total referral payment.

Third-Party Referral Network Transactions (Opcity, ReadyConnect, or Similar Platforms). Transactions sourced through third-party referral networks are governed by Section 36 and are subject to the following: the referral fee is determined exclusively by the third-party network’s current fee schedule; Aari Realty LLC does not set, control, or guarantee the referral fee percentage or amount; referral fee percentages are subject to change at any time per the network’s terms, and Associates are responsible for reviewing the current fee schedule before accepting any lead; after the third-party referral fee is paid, the remaining commission is distributed under the Associate’s standard commission plan, including the applicable plan-based transaction fee per Section 39.1; the fixed allocations set forth in Exhibit A for Company Assisted Transactions and Referral-Sourced Transactions do not apply to third-party referral network transactions; and by accepting a lead, the Associate agrees to be bound by that network’s rules, regulations, performance standards, and fee schedule in effect at the time of acceptance. Full terms are set forth in Section 36, incorporated herein by reference.

§43.2 Recruiting Incentive

Recruiting rewards are governed by the CSA. The current recruiting incentive is \$100.00, payable upon satisfaction of all conditions set forth in the CSA.

§44. Enforcement and Application

All fees, offsets, payment enforcement, license status consequences, survival obligations, and dispute resolution provisions applicable to compensation matters are governed by the ICA and CSA, and are incorporated herein by reference. This Exhibit A may be amended by the Company effective immediately upon notice by any method set forth in Section 18. No amendment alters transactions already under a fully executed purchase-and-sale agreement, listing agreement, or buyer brokerage agreement as of the date of notice.

OPERATIONS & COMPLIANCE MANUAL

Order of precedence is governed by Section 18.

§45. DEFINITIONS

“Active”: An Associate who has completed all onboarding requirements, maintains current license status, has paid all required fees, and is eligible to engage in real estate transactions.

“Inactive”: An Associate who has requested or been placed in inactive status, is not eligible to engage in new real estate transactions, but maintains affiliation with the Company.

“Good Standing”: has the meaning set forth in Section 7.

“Material Breach”: Includes: (a) violations resulting in client harm, complaint, or financial loss; (b) regulatory investigation, fine, or disciplinary action by DBPR, FREC, MLS, or NAR; (c) repeated violations of the same policy after written warning; (d) any violation involving fraud, misrepresentation, discrimination, or fair housing law violations; and (e) failure to cure a non-material breach within ten (10) business days of written notice.

“Abandoned Commission”: Any transaction for which the Associate fails to submit the complete compliance file and all closing documentation, including the Commission Disbursement Authorization, within the deadlines stated in the Operations & Compliance Manual and Exhibit A, or fails to respond to a written Broker request for file completion within ten (10) business days. Fees applicable to an Abandoned Commission are set forth in Exhibit A.

“Complete File”: A transaction file in which: (a) all required documents are submitted; (b) all items on the applicable compliance platform checklist are marked complete; and (c) the file has been reviewed and approved by the Broker.

“Company-Generated Lead”: has the meaning set forth in Section 9.

“Business Day”: has the meaning set forth in the Definitions section of the Independent Contractor Agreement.

§46. COMMISSIONS & COLLECTIONS

The Company may withhold the amount of a commission actually in dispute pending resolution, subject to the notice and release requirements of Section 10. The undisputed portion is disbursed to the Associate

in the ordinary course. Where the Company incurs internal administrative time or outside legal costs to secure or defend a commission, those costs may be allocated proportionally to the Associate. Internal administrative costs shall be calculated at the rate set forth in Exhibit A, and cost allocation is subject to the cap set forth in Exhibit A. The Broker will provide written accounting of all allocated costs within ten (10) business days of deduction. The Company is not obligated to prosecute or sue to collect any commission, and Associates have no right to compel the Company to initiate collection or legal action.

§47. COMPANY PROPERTY & RECORDS

Upon termination, the Associate must return Company property in accordance with the schedule set forth in Section 13. All Company materials, records, and data remain Company property at all times.

§48. WIRE & FUNDS HANDLING

Associates are prohibited from providing, relaying, drafting, or transmitting wire or funds transfer instructions to any party. Violation constitutes a Material Breach and may result in immediate termination and personal liability for any resulting losses. Clients must obtain and verify wire instructions directly with the escrow or title agent using a known, verified phone number. Associates must never forward screenshots, PDFs, or images of wiring details. Any suspected wire fraud must be reported to the Broker in accordance with the reporting deadlines in Section 85 of this Manual. Associates must proactively warn every client in writing about wire fraud risks at or before contract execution.

§49. REGULATORY COMPLIANCE

All Associates must maintain compliance with: Florida Statute Chapter 475; Florida Administrative Code (FAC) Rules of FREC; DBPR requirements; MLS Rules and Regulations; NAR Code of Ethics (if applicable); Fair Housing Act and Florida Fair Housing Act; and all federal, state, and local laws governing real estate transactions. Associates are responsible for maintaining an active Florida real estate license and must upload current license documentation to the Company's compliance platform within ten (10) business days of each renewal.

§50. TRANSACTION DOCUMENTATION & FILE SUBMISSION

All transactions must be submitted to the Broker for review and approval in accordance with Florida Statute §475.5015 and FREC Rule 61J2-10.030. Associates must upload all transaction documents to the Company's designated compliance platform within forty-eight (48) hours of execution or receipt by Associate, whichever occurs later. Required Transaction Documents include but are not limited to:

executed listing agreements, buyer-broker agreements, or tenant representation agreements; executed purchase and sale contracts or lease agreements; all amendments, addenda, and modifications; disclosure forms; inspection reports, repair requests, and responses; title commitments and HOA documents; closing statements; Commission Disbursement Authorization (CDA) or equivalent; proof of earnest money deposit and disbursement records; and all written correspondence related to the transaction. Associates must ensure that transaction files are complete and submitted at least seven (7) days prior to closing for final Broker review.

Any modification to a transaction, including contract extensions, addenda, or notices affecting closing dates or escrow disbursement, must be executed by all parties prior to the original expiration date and submitted for review within the deadline stated above.

Consequences of Non-Compliance: Failure to submit required documents may result in commission withholding until the file is complete, suspension of system access, a mandatory compliance review meeting, and termination of this Agreement for repeated or material violations. Release of withheld amounts after cure is governed by Section 8. Fees applicable to late or incomplete submissions are set forth in Exhibit A.

§51. BROKER REVIEW & CONTRACT EXECUTION

All contracts, listing agreements, buyer-broker agreements, leases, and amendments must be submitted to the Broker for review and approval, and must be uploaded to the compliance platform within the deadlines stated in Section 50. Documents the Associate is authorized to execute under Section 55 may be executed by the Associate without prior Broker approval and are submitted for review after execution. All other documents must be submitted to the Broker for review and approval before presentation or execution, unless the Associate holds an active Florida Broker license. Except as expressly authorized in Section 55, Associates may not bind the Company to any agreement, fee arrangement, commission split, or obligation without prior written Broker approval. Section 55 governs which documents an Associate may execute on behalf of the Company.

§52. PROHIBITED CONDUCT

The following conduct is strictly prohibited and constitutes a material breach of the ICA:

- Misrepresentation, fraud, or dishonest dealing
- Discrimination or violation of fair housing laws
- Failure to disclose material facts or conflicts of interest

- Unauthorized practice of law
- Providing legal, tax, or accounting advice to a client rather than referring the client to a licensed attorney, certified public accountant, or other qualified professional
- Commingling of client funds or unauthorized use of trust accounts
- Advertising or marketing without required Broker identification and approval
- Solicitation of Company clients or Associates upon termination
- Repeated or willful failure to submit transaction documents or respond to Broker requests within required timeframes, after written notice. A single late submission is addressed under Section 8 and Exhibit A and is not a material breach.
- Engaging in real estate activity under another broker's license while affiliated with the Company
- Accepting, demanding, or retaining compensation in excess of the amount stated in an executed buyer brokerage agreement or listing agreement without a written amendment signed by all required parties
- Engaging in subject-to, creative financing, foreclosure rescue, short sale negotiation on behalf of a seller, or similar distressed property transactions without prior transaction-specific written approval from the Broker
- Initiating or transmitting any call, text message, prerecorded message, automated dialing communication, or email campaign without documented prior express written consent where required by the Telephone Consumer Protection Act, the Florida Telephone Solicitation Act, or applicable do-not-call rules

§53. TRANSACTION FILE REQUIREMENTS

All Associates must submit complete transaction files in accordance with Florida Statute §475.5015 and FREC Rule 61J2-10.030. The Broker is required to maintain transaction records for a minimum of five (5) years from the date of closing or termination.

Submission Deadline: Document upload deadlines and the deadline for submitting a complete file before closing are set forth in Section 50.

§54. RESERVED

This Section is reserved. Transaction documentation, submission deadlines, modification requirements, and the consequences of non-compliance are set forth in Section 50.

§55. BROKER EXECUTION & REVIEW ADDENDUM

This Section governs which documents an Associate may execute on behalf of the Company and supersedes any contrary statement of signing authority elsewhere in this Agreement or any Incorporated Document.

§55.1 Broker Signature Required for:

Commission Disbursement Authorizations (CDAs); Associate Personal Transactions; and any modification to the Independent Contractor Agreement, Exhibit A, or any Aari-generated agreement between the Company and the Associate.

§55.2 Associate Signature Permitted

Associates are authorized to execute the following on behalf of the Company without Broker initial or signature: all standard Florida Realtors and NAR contracts (FR/BAR AS IS, FR/BAR Standard, CRSP-17, NABOR, Residential Lease, Vacant Land) and their addenda; Buyer Broker Agreements and Seller-to-Buyer's-Broker Compensation Agreements; and Outside-Broker Referral Agreements. Signature block format: Aari Realty LLC | [Associate's Full Name]. By signing on behalf of the Company, the Associate warrants that the form is a Florida Realtors, NAR, or Aari-provided template used unmodified, and that terms fall within the standard commission and compensation framework in Exhibit A.

§55.3 Arbitration & Legal Disputes

Any arbitration, mediation, or litigation matter is handled by the Company's retained counsel. Associates may not sign, initial, or respond to any arbitration demand, mediation notice, subpoena, or legal correspondence on behalf of the Company. Associates may not execute or initial the arbitration provision within any real estate contract. The arbitration line on any FR/BAR, AS IS, CRSP, or other form is left blank. The arbitration provision is not initialed on behalf of the Company by any person, and neither the Associate nor the Broker completes it after the contract has been executed. All such items must be routed to the Broker within twenty-four (24) hours of receipt.

§55.4 Prohibited Conduct

Associates may not: alter or modify Company-provided or state-approved contract templates without written Broker approval; sign, initial, or negotiate arbitration, mediation, or litigation documents; bind the Company to fee arrangements that fall outside Exhibit A; provide legal advice to clients or interpret contract provisions in dispute; or alter, complete, or add to any document after it has been executed by any party, including filling a blank field, correcting a date, or adding an initial. A document requiring change after execution must be corrected by written amendment or addendum executed by all parties.

§55.5 Recordkeeping

All executed documents must be uploaded into the Company's compliance system within forty-eight (48) hours of signature. No Commission Disbursement Authorization (CDA) will be issued until all required documents are uploaded, checklists are complete, and the file has been reviewed and approved by the Broker. Because the Commission Disbursement Authorization is the instruction under which the settlement agent disburses, a file that is not complete and approved before the CDA must be transmitted will delay or prevent disbursement at closing.

§55.6 Review Turnaround

The Broker will review submitted contracts within forty-eight (48) hours during normal business hours (Monday through Friday, 9:00 AM to 5:00 PM EST, excluding holidays) for complete submissions. Incomplete submissions restart the review period upon resubmission.

§56. FAIR HOUSING POLICY

Aari Realty LLC is committed to full compliance with federal, state, and local fair housing laws, including: Federal Fair Housing Act (Title VIII of the Civil Rights Act of 1968, as amended); Florida Fair Housing Act (Chapter 760, Florida Statutes); Americans with Disabilities Act (ADA); and all applicable local ordinances.

Prohibited Conduct: Associates may not: refuse to show, rent, sell, or negotiate with any person based on a protected class; provide different terms based on a protected class; steer clients toward or away from neighborhoods based on protected characteristics; make statements or advertisements that indicate a preference, limitation, or discrimination; or retaliate against any person for exercising fair housing rights.

Fair housing training requirements, including the deadline and the client representation gate, are set forth in Section 4.

§57. ADVERTISING POLICY

All advertising and marketing by Associates must comply with Florida Statute §475.42, FREC Rule 61J2-10.025, and the rules of each MLS in which the Associate participates, as those requirements exist at the time of publication. Those rules define what constitutes an advertisement and what identification each advertisement must carry. The Associate is responsible for knowing the current requirement.

Any advertisement that promotes a property, a transaction, or the Associate's real estate services must identify Aari Realty LLC as the brokerage. The Associate's name may appear but must not be displayed

more prominently than the Company name. This applies in every medium, including print, signage, websites and landing pages, email, online advertisements, social media posts, and video content.

Associates may not advertise in their own name without including the Company name, use a team name, DBA, or trade name without prior written Broker approval, or use misleading or deceptive language or images. Requests for team name or DBA approval must be submitted in writing through the Company's compliance platform. Silence does not constitute approval.

§58. SOCIAL MEDIA POLICY

All social media activity by Associates must comply with applicable federal, state, and local laws, including advertising and marketing regulations, fair housing laws, antitrust laws, and the NAR Code of Ethics.

Associates are strictly prohibited from using unauthorized third-party content in social media posts, including images, music, audio, videos, or copyrighted text. Associates assume primary liability for copyright violations.

Associates must protect client confidentiality on social media. Before posting any content that includes or references a client, Associates must obtain written permission.

§59. SIGN BORROWING POLICY

Aari Realty provides open house signs and for sale signs to Associates for professional use. Signs remain Company property at all times.

Signs must be returned promptly after use (within 48 hours of event completion), stored properly during use to prevent damage, and lost or damaged signs must be reported immediately.

§60. ERRORS & OMISSIONS ADDENDUM

The Company maintains Errors & Omissions (E&O) insurance covering the real estate brokerage activities of the Broker and affiliated Associates. Coverage is subject to policy limits, exclusions, and conditions. Current carrier, policy number, effective dates, coverage limits, and deductible amounts are maintained in the internal E&O Certificate on file with the Qualifying Broker and updated at each policy renewal. Associates may request a current certificate of insurance by contacting the Broker directly.

The retention or deductible stated in the current policy declarations is the amount referenced in Section 6. Associates may request a copy of the current declarations page and certificate of insurance from the

Broker at any time, and the Broker shall provide it within three (3) business days of a written request.

Exclusions: The Company's E&O policy contains exclusions set by the carrier, and those exclusions change at each renewal. The Associate must review the current policy and endorsements before assuming any activity is covered. As of the current policy period, coverage does not extend to intentional misconduct, fraud, or criminal acts; activities outside the scope of this Agreement or the Associate's Florida real estate license; claims arising after termination of this Agreement except as to transactions that closed during affiliation; transactions in which the Associate or a related party holds a beneficial ownership interest as buyer or seller, including approved Personal Transactions; activities as an escrow agent, title agent, or title abstractor; mortgage brokerage or lending services; syndication or property development; construction management; property management activities; appraisal of property in which the Associate holds an interest; and claims brought by an Associate against the Company arising out of the contractor relationship. This list is a summary and is not a substitute for the policy. The Associate is solely responsible for determining whether to obtain individual coverage for any activity the Company's policy does not reach.

Auto Insurance: Associates who transport clients must maintain personal auto insurance with liability limits of at least \$100,000 per person / \$300,000 per accident. Proof of insurance must be provided to the Broker at onboarding, annually on renewal, and within five (5) business days of any policy change.

Claims Reporting: Associate must notify Broker in writing within twenty-four (24) hours of any demand, complaint, investigation, or threatened claim and must fully cooperate in the investigation and defense. Associates must fully cooperate with the Company's insurance carrier and legal counsel.

§61. RECORD RETENTION & CONFIDENTIALITY

Aari Realty LLC is required by Florida law to maintain transaction records for a minimum of five (5) years from the date of closing or termination. Transaction-document submission is governed by Section 50.

Associates must protect the confidentiality of client information, including financial information, personal identifying information, medical or health information, and transaction details.

§62. RECRUITING REWARD POLICY

Eligibility: To receive the Recruiting Reward: (1) the referring Associate must remain Active and not subject to termination or Material Breach proceedings from the date of referral through payment; (2) the recruited Associate must be a newly affiliated licensed Florida sales associate; (3) the recruited Associate

must complete onboarding and pay all required fees; and (4) the recruited Associate must remain Active and in Good Standing for at least thirty (30) consecutive days after affiliation.

Payment: The Recruiting Reward will be paid within the timeframe specified in Exhibit A following the date all eligibility requirements are satisfied. Payment will be issued via ACH, check, or other method designated by the Company. The reward is considered taxable income and will be reported to the IRS on Form 1099-NEC.

Fee Amounts: The specific amount of the Recruiting Reward and all related fees are set forth in Exhibit A: Commission Fee Schedule.

§63. COMPANY LEADS ADDENDUM

§63.1 Lead Ownership and Assignment

Company-generated leads are Company property. The Broker assigns leads and may reassign for missed service levels. Compensation on Company leads is allocated between the Associate and the Company in the fixed allocation set forth in Exhibit A, after referral fees and approved marketing deductions are taken off the top. Marketing deductions must be pre-approved in writing by Broker prior to lead assignment and may not reduce the net commission below the minimum floor set forth in Exhibit A. Lead classification, including the written notice requirement at assignment, is governed by Section 9.

§63.2 Service Expectations

The Associate must contact an assigned lead promptly, work the lead consistently, and keep the Broker informed of the lead's status without being asked. The Broker may reassign a lead where the Associate has not made contact, has stopped working the lead, or has not communicated status. Reassignment is governed by Section 34.

§64. PERSONAL TRANSACTIONS ADDENDUM

§64.1 Scope

This Addendum applies to any transaction in which the Associate has a direct or indirect ownership interest in real property, including purchases, sales, assignments, and acquisitions through an entity.

§64.2 Policy

Personal transactions are subject to the standard transaction fee and compliance review requirements as set forth in Exhibit A. No commission split applies to qualifying personal transactions, as further defined

in the CSA. Full files and approvals are required. No discounts on compliance steps or documentation.

Personal Transactions are excluded from the Company's Errors & Omissions coverage. The Associate is solely responsible for any resulting liability and is strongly encouraged to obtain individual coverage before proceeding.

§64.3 Disclosure Requirement

The Associate must disclose to the Qualifying Broker any transaction covered by this Addendum prior to contract execution. The Associate's status as a real estate licensee must be disclosed in the purchase contract or other applicable transaction documents.

§65. MLS & BRAND STANDARDS ADDENDUM

The Associate must comply with the listing submission, cooperation, and public marketing rules of each MLS in which the Associate participates, as those rules exist at the time of the transaction. The applicable MLS defines what constitutes public marketing, what triggers the submission obligation, and the deadline that applies. Those definitions and deadlines vary by board and are published by each board. The Associate is responsible for knowing and following the current rule of every board in which the Associate participates.

Where a seller directs that a property not be submitted to or publicly marketed through an MLS, the Associate must satisfy that MLS's own requirements for the election before any advertising of the property occurs. Some boards require a signed owner agreement or written notice to be filed with the board itself, and a document held only in the Company's file does not satisfy that requirement. The Associate must complete the board's process and upload proof of the board filing, together with the seller's written instruction, to the compliance platform.

Company file completion (not an MLS deadline): the fully executed listing agreement must be uploaded to the Company's compliance platform within forty-eight (48) hours of execution.

Broker notice: any MLS inquiry, citation, fine, complaint, or disciplinary communication must be reported to the Broker within twenty-four (24) hours.

Fine responsibility: any fine, penalty, or sanction imposed by any MLS as a result of the Associate's violation is the Associate's sole financial responsibility, and the Company may offset amounts it pays on the Associate's behalf against future commission disbursements. Offsets under this Section are subject to the caps, notice requirements, and release deadlines stated in Section 7, Section 10, and Section 72, as applicable to the underlying obligation.

Advertising and broker identification requirements are governed by Section 57.

§66. TEAM ADDENDUM

§66.1 Team Lead Responsibilities

Team lead is responsible for coordinating team activities, monitoring branding compliance, and assisting the Broker in ensuring team members follow Company policies. The Broker retains all supervisory responsibility under Florida law.

§66.2 Team Splits

Intra-team splits must be on file (signed and stored in the team folder) before first shared deal.

§66.3 Roster Management

Submit roster changes within 48 hours. Update signage, websites, and marketing materials to reflect roster changes within seven (7) business days of the roster change effective date.

§67. CDA WORKFLOW ADDENDUM

§67.1 CDA Preparation and Purpose

The Commission Disbursement Authorization (CDA) is the written instruction the Company provides to the settlement agent directing how commission is to be disbursed at closing. The CDA is prepared, signed, and transmitted by the Broker or Compliance Team. Associates do not create, edit, attach, or transmit a CDA, and any CDA issued by an Associate is void.

A CDA is issued on every transaction in which the Company is entitled to compensation.

In addition, a CDA must include conflict disclosure where: (a) the Associate or a related party has any ownership interest in the property; (b) team member representation exists; (c) any family relationship or financial interest exists between transaction parties; or (d) any other conflict of interest exists as required by FREC rules or Company policy.

The Associate agrees to sign any disbursement instruction, authorization, or closing statement acknowledging the Company or the settlement agent presents in connection with a CDA issued under this Section. If funds are disbursed to the Associate in error or in an amount exceeding the Associate's share, the Associate shall return the excess to the Company within five (5) business days of receipt.

§67.2 Disbursement Method

Commission may be disbursed by either of the following methods:

(a) **Company Disbursement.** The settlement agent disburses the full commission to Aari Realty LLC. The Company then disburses the Associate's share in accordance with §67.3. This is the default method.

(b) **Split Disbursement at Closing.** The settlement agent disburses the Company's fees and charges to Aari Realty LLC and the Associate's net share directly to the Associate at closing, as directed by the CDA.

Election. An Associate may elect split disbursement by creating a task assigned to the Broker in the Company's compliance platform requesting it. The election is recommended after the inspection period has expired and must be submitted no later than seven (7) days before the scheduled closing date, so that it can be included in the CDA.

Conditions. Split disbursement is available only where: (i) the transaction file is complete and compliant and has been approved by the Broker before the CDA is transmitted; (ii) the Associate is in Good Standing; (iii) no offset, hold, or outstanding balance applies to the transaction or the Associate; and (iv) the settlement agent accepts split disbursement instructions. Where any condition is not met, the transaction proceeds under Company Disbursement and the Broker will notify the Associate.

The Broker retains sole discretion to direct Company Disbursement on any transaction where an offset, compliance issue, or dispute affects the amount payable. Election of split disbursement does not waive any Company right of offset, and any amount owed to the Company that is not collected at closing remains due and may be offset against future disbursements.

§67.3 File Completion and Commission Payment

Disbursement timing, including any permitted extension, is governed by Section 7.

§68. BILLING & FIRST-MONTH WAIVER ADDENDUM

§68.1 Recurring Fees

All recurring fees applicable to Associates, including the Quarterly Brokerage Fee and the annual E&O + Compliance Fee, are non-refundable. A Quarterly Brokerage Fee charged for a billing cycle in which the Associate terminates is not refunded or prorated. The Quarterly Brokerage Fee is due on the same day of the month as the Associate's onboarding date, every third month, beginning three months after onboarding. The Associate's first quarter is waived in full; no Quarterly Brokerage Fee is charged for the three months following onboarding. Where the Associate's onboarding day of the month does not occur in a month in which the fee falls due, the fee is due on the first day of the following month. The annual E&O

+ Compliance Fee, in the amount set forth in Exhibit A, is due at the time of onboarding, and thereafter on the Associate's onboarding anniversary date each year. **Only the E&O + Compliance Fee is due at signup**; the first quarter's Quarterly Brokerage Fee is not charged at onboarding. All fee amounts and billing schedules are governed exclusively by Exhibit A: Commission Fee Schedule, as amended from time to time.

§68.2 Payment Enforcement

Failed payments may result in late payment fees, returned payment fees, and reactivation fees when returning from Inactive status, each as set forth in Exhibit A. Those fees apply on the terms stated in Exhibit A.

Before suspending system access, changing the Associate to Inactive status, withholding commission, or terminating this Agreement for non-payment, the Company shall provide written notice of the failed payment and allow five (5) business days from the date of notice for the Associate to cure. Where the Associate cures within that period, no suspension, status change, withholding, or termination occurs under this Section.

Where the Associate does not cure within five (5) business days of notice, the Company may suspend system access, change the Associate to Inactive status, withhold commission subject to the limits in Section 7 and Section 25, or terminate this Agreement.

§69. TERMINATION ADDENDUM

§69.1 Property Return

Company property return deadlines are set forth in Section 13.

§69.2 File Completion.

Departed Associates must deliver all final documents and complete all outstanding files within ten (10) business days of termination. Files not completed within this timeframe shall be deemed Abandoned Commissions and subject to fees per Exhibit A. Escalation applies to files that remain incomplete after closing as set forth in Exhibit A.

§69.3 Financial Settlement.

Pending payouts processed per ICA and CSA order of precedence.

§70. AARI REFERRALS LLC REFERRAL COMPENSATION

All referral compensation rules, including associate/broker splits and any administrative retention on incoming referrals, are governed solely by the Aari Referrals LLC Referral Compensation Policy. This Manual intentionally does not restate referral percentages or admin amounts.

§71. SELLER IDENTITY VERIFICATION

§71.1 Verification Trigger.

The Associate must complete the Company's seller identity verification protocol before entering any listing into the MLS or publicly marketing any property where one or more of the following applies:

- (a) the property is vacant, unimproved, or unoccupied;
- (b) the seller is not physically located in Florida;
- (c) the seller declines an in person or live video meeting;
- (d) title reflects no mortgage, lien, or other recorded encumbrance;
- (e) the seller was self referred or solicited the Associate without a prior personal or professional relationship;
- (f) the seller requests unusual speed, insists on wire only proceeds, or offers the property materially below market value.

§71.2 Record Owner Signature.

No property may be entered into the MLS or marketed in any manner without a fully executed listing agreement signed by all record owners as reflected in the county property appraiser and official records. The Associate must confirm record ownership independently and document the source in the transaction file.

§71.3 MLS Gate.

Verification and record owner confirmation must be documented in the transaction file before MLS entry. The Broker may remove any listing that does not have completed verification on file.

§71.4 Approved Method.

Verification must include all of the following, documented in the transaction file: (a) a government-issued photo identification for each record owner, compared against the name reflected in the county property appraiser and official records; (b) a live video meeting or in-person meeting with each record owner in which the identification is visible and the person presenting it is the person pictured; and (c) independent

confirmation of the seller's contact information through the county property appraiser, tax collector, or official records, rather than contact information supplied by the seller.

The Broker may designate a third-party identity verification service in writing, in which case the Associate must use that service. Absent a written designation, the requirements of this Section apply. The Associate must not substitute an alternate method without written Broker approval.

§71.5 No Warranty.

Completion of the verification protocol reduces risk but does not constitute a representation, warranty, or guarantee of the identity, authenticity, or authority of any seller. The Associate remains responsible for exercising reasonable diligence.

§71.6 Escalation.

Any indication of possible seller impersonation must be reported to the Broker immediately and before any further action on the listing.

§72. INDEMNIFICATION & DEFENSE ADDENDUM

§72.1 Indemnification.

To the fullest extent permitted by law, Associate agrees to indemnify, defend, and hold Broker harmless from and against any and all claims, demands, actions, damages, losses, liabilities, fines, penalties, and costs arising out of or related to: any act, omission, negligence, misrepresentation, or misconduct by Associate in the performance of real estate services; any failure by Associate to comply with federal, state, or local laws, FREC rules, MLS regulations, or Brokerage policies; any unauthorized promises, guarantees, or agreements made by Associate to clients, cooperating brokers, or third parties; or any disputes, penalties, or claims related to incomplete, inaccurate, or untimely documentation. This indemnification does not apply to claims arising solely from the Broker's independent negligence or willful misconduct.

§72.2 Defense, Insurance, and Offsets.

Broker, or its E&O carrier, may assume control of the defense and selection of counsel for any covered matter. Associate must notify Broker in writing within twenty-four (24) hours of any demand, complaint, investigation, or threatened claim and must fully cooperate in the investigation and defense. Broker may withhold commissions to cover a claim under this Section in an amount not to exceed the sum of the deductible or self-insured retention stated in the current E&O policy declarations plus any documented actual losses paid or reserved by the Broker or its E&O carrier that are attributable to the Associate's

conduct. Attribution is determined as set forth in Section 25. Any withholding must be documented in writing to the Associate within five (5) business days of the initial withholding, stating the underlying claim or matter, the amount withheld, and the basis for the amount. The Broker shall review the withholding on each subsequent commission disbursement and release any portion that exceeds the then-current calculated amount. If no claim, demand, investigation, or communication from an insurer or third party has been received for ninety (90) consecutive days, the entire withheld amount shall be released. In addition, and regardless of claim activity, any amount withheld under this Section shall be released in full if the underlying claim, demand, or investigation has not resulted in a filed lawsuit, arbitration demand, or written settlement demand within one (1) year of the date the withholding was initiated, unless the Broker provides written notice before that date stating the specific reason the withholding must continue and the expected resolution timeframe. Upon final resolution, Broker will reconcile and remit any excess amounts within thirty (30) days of final resolution, or within sixty (60) days if litigation is pending at the time of resolution.

§72.3 Survival.

The indemnity, defense, and hold-harmless obligations survive termination of Associate's affiliation with Broker.

§73. POST-DEPARTURE COMPENSATION ADDENDUM

§73.1 Procuring Cause.

Under Florida law, all procuring cause rights belong to the brokerage, not the sales associate. Aari retains all procuring cause rights for any buyer or seller introduced to real property through Aari, regardless of whether the Associate remains affiliated with the Company.

§73.2 Protection Period.

Any protection period contained in a Buyer Brokerage Agreement, Listing Agreement, or compensation agreement survives the Associate's departure from the brokerage. Aari retains full compensation rights for any contract, offer, or closing involving a buyer or seller introduced through Aari during the protection period.

§73.3 Broker Discretion on Post-Departure Compensation.

The Broker retains sole discretion to determine the compensation split for any transaction in which the Associate has departed Aari prior to closing. The Associate's prior commission plan does not survive departure. No departing Associate is guaranteed their previous split. Broker discretion under this Section

is exercised above, and not below, the Post-Termination Compensation Floor stated in Section 7 of the Independent Contractor Agreement, which controls.

§73.4 Aari Paid First.

All compensation due to Aari must be paid directly to Aari Realty LLC. Departing Associates receive their portion only after Aari receives funds in full, confirms accurate disbursement, completes audit compliance, and processes internal accounting.

§73.5 Prohibition Against Interference.

Departing Associates may not interfere with Aari's compensation status, instruct title companies, or attempt to influence representation. Any attempt to manipulate, alter, backdate, or rewrite documents to bypass Aari's rights is strictly prohibited.

§73.6 Survival.

This Addendum remains binding after the Associate's departure. Aari's rights to compensation survive termination of the ICA.

§74. FORCE MAJEURE

Force majeure events, the extension of affected deadlines, and the notice and documentation requirements are governed by Section 17. The Broker may extend deadlines beyond the period provided in Section 17 in the Broker's discretion where circumstances warrant.

§75. DISPUTE RESOLUTION & APPEALS

Associates who wish to contest any enforcement decision, fee assessment, or suspension must submit a written appeal to the Broker within thirty (30) calendar days of receiving notice of the decision. The appeal must include: a clear statement of the decision being appealed; the Associate's position and supporting facts; and any documentation supporting the appeal.

The Broker will review and respond in writing within fifteen (15) business days. The Broker's decision on appeal is final and binding. Nothing in this Section waives any claim the Associate may have under this Agreement or applicable law, or alters any limitations period established by law. Filing an appeal does not toll, extend, or suspend any other deadlines or obligations under this Manual, the ICA, or applicable law unless the Broker grants a specific written extension.

§76. ESCROW DEPOSITS AND CLIENT FUNDS

§76.1 No Brokerage Escrow.

Aari Realty LLC maintains no escrow or trust account and does not accept, hold, or disburse client funds of any kind.

§76.2 Absolute Prohibition.

The Associate must never accept, receive, hold, transport, deposit, endorse, or take possession of any earnest money deposit, rent payment, security deposit, option fee, or other client funds in any form, including cash, check, money order, wire, or electronic payment. All funds must move directly from the client to the escrow agent, title company, or closing attorney designated in the contract.

§76.3 Delivery Instructions.

The Associate must provide the client with the designated escrow agent's delivery instructions in writing and must confirm the client understands that funds go directly to that agent.

§76.4 Written Verification Required.

The Associate must obtain written confirmation of receipt from the escrow agent and upload it to the compliance platform within forty eight (48) hours of the deposit due date under the contract. Written confirmation must identify the escrow agent, the amount received, and the date received. A portal screenshot, image, or verbal confirmation is not acceptable.

§76.5 Missing or Late Deposits.

If written confirmation is not received by the deposit deadline, the Associate must notify the Broker the same business day and issue the applicable Escrow Deposit Receipt Verification request consistent with Rule 61J2-14.008, Florida Administrative Code.

§76.6 Performance Hold.

The Associate must not proceed with further contract performance, including scheduling inspections, waiving contingencies, or delivering notices that depend on the deposit, until the deposit is verified or the Broker directs otherwise in writing.

§76.7 Material Breach.

Violation of Section 76.2 or Section 76.5 is a Material Breach and may result in immediate termination and reporting to DBPR. Violation of any other provision of this Section is a compliance matter addressed under Section 8 and may result in termination where repeated or willful.

§77. FEDERAL REPORTING DESIGNATIONS

§77.1 No Independent Filing Authority.

The Associate has no authority to file any federal report on the Company's behalf.

§77.2 Designation Prohibited.

The Associate must not sign, initial, accept, or agree to any designation agreement, reporting assignment, or written arrangement that places a federal reporting obligation on Aari Realty LLC or on the Associate. Any such request from a title company, closing agent, attorney, or other party must be forwarded to the Broker unanswered. Unauthorized acceptance is a Material Breach.

§77.3 Cooperation.

Where a federal reporting or anti-money-laundering requirement applies to a transaction, the Associate must cooperate with the Broker, settlement agent, and counsel in gathering the ownership or source-of-funds information required.

§78. PERSONAL ASSISTANTS

§78.1 Definitions.

Licensed Assistant: an assistant holding an active Florida real estate license.

Unlicensed Assistant: an assistant who does not hold a real estate license and who performs administrative support only.

Virtual Assistant: an assistant, licensed or unlicensed, performing services remotely. A Virtual Assistant is subject to the same restrictions as an on site assistant based on license status.

§78.2 Registration Required.

The Associate must register any assistant with the Broker in writing before the assistant performs any function, identifying the assistant's full legal name, license status and license number if applicable, and scope of duties. The Associate must provide the Broker with a copy of the written agreement between the Associate and the assistant.

§78.3 Permitted Activities.

An Unlicensed Assistant may:

(a) answer and route telephone calls and take messages;

- (b) enter and update listing data in the MLS at the direction of the Associate;
- (c) compile and assemble transaction documents, correspondence, and file materials at the direction of the Associate, without selecting, drafting, or modifying any contract term;
- (d) perform filing, copying, scanning, and clerical work;
- (e) obtain documents from public records;
- (f) act as a courier;
- (g) place and remove signs and lockboxes;
- (h) prepare marketing materials, subject to Broker approval before publication;
- (i) schedule inspections and routine appointments;
- (j) greet visitors at an open house, distribute materials prepared by the Associate, and refer all questions to the Associate.

§78.4 Prohibited Activities.

An Unlicensed Assistant must not:

- (a) show property or accompany a prospect through a property;
- (b) answer any question about a listing, including price, square footage, condition, or age;
- (c) discuss or explain any contract, brokerage agreement, financing, title, or closing matter;
- (d) negotiate any term, including compensation, commission splits, or referral fees;
- (e) solicit or contact prospective buyers, sellers, landlords, or tenants;
- (f) present or negotiate offers;
- (g) obtain, renew, or discuss any listing, buyer brokerage, or property management agreement;
- (h) receive any compensation contingent on a transaction.

§78.5 Licensed Assistants.

A Licensed Assistant may perform licensed activity only while registered with Aari Realty LLC, supervised by the Associate and the Broker, and subject in full to the ICA, this Manual, and all Incorporated Documents.

§78.6 System Access.

Any assistant with access to Company systems, the compliance platform, MLS credentials, lockbox or key access, or client files must be identified to the Broker in advance and is subject to the Confidentiality and password sharing provisions. The Associate must not share login credentials with any assistant. Where a platform permits sub accounts, the assistant must be issued a separate credential.

§78.7 Employment and Cost.

The Associate is the assistant's sole employer or contracting party and bears all compensation, tax, withholding, and insurance responsibility. The Company has no obligation to any assistant.

§78.8 Broker Authority.

The Broker may refuse, restrict, or revoke any assistant's registration, system access, or presence at any time and for any reason.

§78.9 Responsibility and Indemnification.

The Associate is responsible for supervising the assistant and for ensuring the assistant does not engage in activity requiring a license. The Associate indemnifies the Company for all claims, fines, penalties, and costs arising from the assistant's conduct. This obligation survives termination.

§79. PAYMENT TO A CORPORATE ENTITY

§79.1 Election.

The Associate may elect to receive compensation through a Professional Association (P.A.), Limited Liability Company (LLC), or Professional Limited Liability Company (PLLC).

§79.2 Entity Name.

The entity name must contain the Associate's full legal licensed name as it appears on the Associate's Florida real estate license, consistent with FREC requirements.

§79.3 DBPR Amendment Required.

The Associate must amend their license record with DBPR to reflect the entity before any compensation is paid to the entity. Formation with the Florida Division of Corporations alone does not satisfy this requirement.

§79.4 Form W-9.

The Associate must provide a completed IRS Form W-9 reflecting the entity's exact legal name and Taxpayer Identification Number.

§79.5 Verification Gate.

No commission will be disbursed to any entity until the Broker has verified the entity designation on the Associate's DBPR license record and has a matching Form W-9 on file.

§79.6 Reversion.

If the entity's status lapses, the entity is administratively dissolved, or the DBPR license record no longer matches the entity, compensation reverts to the Associate individually until the discrepancy is corrected. Payment will not be held pending correction.

§79.7 Notice of Change.

The Associate must notify the Broker in writing within ten (10) business days of any change to the entity's name, status, ownership, or Taxpayer Identification Number.

§79.8 Associate Responsibility.

The Associate is solely responsible for forming and maintaining the entity in good standing and for all tax, legal, and regulatory consequences of the election.

§80. PROPERTY MANAGEMENT AND RENTALS

§80.1 No Property Management Services.

Aari Realty LLC does not provide property management services.

§80.2 Definition.

Property management includes rent collection, holding or managing security deposits, maintenance coordination, repair ordering, vendor payment, tenant supervision, guest communication, cleaning coordination, escrow handling, tax or tourist development tax remittance, and any ongoing management of a property after lease execution.

§80.3 Permitted Activity.

The Associate may list residential and commercial property for lease and procure tenants under Aari Realty LLC, using Company approved or Florida Realtors approved lease listing forms, with all activity conducted in the name of Aari Realty LLC.

§80.4 Prohibited Activity.

Property management is licensed brokerage activity under Section 475.01(1)(a), Florida Statutes. While affiliated with Aari Realty LLC, the Associate must not perform any property management function, as defined in Section 80.2, in any form: not under the Aari Realty LLC name or license, not under the Associate's own name, not through a spouse or family member, and not through any business entity the Associate owns, controls, or is affiliated with. Performing property management without operating through a properly licensed brokerage is unlicensed activity under Section 475.42, Florida Statutes, and creates personal statutory liability for the Associate that the Company does not defend or indemnify. Two carve-outs apply. First, an Associate may manage real property the Associate owns strictly for the Associate's own account, subject to the conditions in Section 80.7. Second, the Broker may approve in writing a specific property management engagement that runs through Aari Realty LLC with the Broker as the signatory to the property management agreement; absent such written approval, no property management engagement may be conducted under Aari Realty LLC or attributed to Aari Realty LLC.

§80.5 Commission Timing.

Commission on a lease is due to Aari Realty LLC in full at or before tenant occupancy and not on a monthly installment basis, unless the Broker approves otherwise in writing.

§80.6 Funds.

Rents, security deposits, prepaid rent, pet fees, application fees, and any other tenant funds are trust funds under Rule 61J2-14, Florida Administrative Code, and Chapter 83, Florida Statutes, including Section 83.49 governing security deposits. The Company holds no trust account for tenant funds and does not accept, receive, hold, disburse, or route any tenant funds under any circumstance. The Associate must not accept, receive, hold, transport, deposit, endorse, or route any tenant funds. Section 76 applies in full. Any transaction requiring trust-fund handling of tenant money must be conducted by a separately licensed and insured property management entity outside the Aari Realty LLC brokerage relationship.

§80.7 Associate Owned Rentals.

An Associate managing real property the Associate owns for the Associate's own account does so outside the scope of this Agreement and outside the Company's license and insurance. The following conditions apply and are a condition of the Section 80.4 carve-out. The Associate must not (a) use Aari Realty LLC branding, logos, forms, systems, contacts, or letterhead in connection with the own-rental management; (b) route any funds from any tenant, prospective tenant, vendor, or third party through Aari Realty LLC; (c) accept compensation from any third party for services performed on the own-rental; or (d) hold the Associate out to any tenant, vendor, or third party as a property manager, licensed or otherwise, unless the Associate holds a separately valid registration authorizing that representation. Advertising the own-rental

must comply with Florida advertising law and must not imply Aari Realty LLC involvement unless the property is listed with the Company under Section 80.3.

§80.8 Material Breach.

Violation of Section 80.4, Section 80.6, or Section 80.10, or any finding of unlicensed activity under Section 475.42, Florida Statutes, arising from conduct addressed in this Section is a Material Breach and grounds for immediate termination and reporting to DBPR. Violation of any other provision of this Section is a compliance matter addressed under Section 8 and may result in termination where repeated or willful.

§80.9 Compensation Flow.

All compensation the Associate earns from leasing, tenant procurement, or any brokerage-adjacent service in the residential or commercial rental space flows through Aari Realty LLC under Section 7 of the Independent Contractor Agreement and under Exhibit A. The Associate must not accept direct payment from any owner, tenant, prospective owner, prospective tenant, vendor, or third party for any brokerage-adjacent service. Direct payment in violation of this Section is a Material Breach under Section 80.8.

§80.10 Community Association Management.

Community association management is a separately licensed activity under Chapter 468 Part VIII, Florida Statutes, administered by the Department of Business and Professional Regulation. A Florida real estate license does not authorize the practice of community association management. The Associate must not perform community association management services, hold the Associate out as a community association manager, or accept compensation for community association management services unless the Associate holds a current active community association manager license and any such activity is conducted outside the brokerage relationship with Aari Realty LLC. Any community association management engagement the Associate undertakes must be disclosed to the Broker in writing at the outset of the engagement.

§81. DISTRESSED PROPERTY AND CREATIVE FINANCING

§81.1 Approval Required.

The Associate must not market, negotiate, present, or close any of the following without transaction specific written Broker approval obtained before any offer is presented:

- (a) subject to transactions where existing financing remains in place after transfer;
- (b) wraparound mortgages;

- (c) seller financing;
- (d) lease option or lease purchase arrangements;
- (e) assignment of contract;
- (f) short sale, foreclosure rescue, loan modification, or mortgage assistance arrangements.

To request approval, the Associate must submit a written request to the Broker identifying the property, the parties, the transaction structure proposed, and the reason the structure is being used. The Broker will respond in writing. Approval is transaction specific, must be obtained before any offer is presented, and may be granted or withheld in the Broker's sole discretion. Silence does not constitute approval.

§81.2 Regulatory Compliance.

When marketing to or soliciting homeowners in default, foreclosure, or financial distress, the Associate must comply with the Mortgage Assistance Relief Services Rule, 12 CFR Part 1015, and the Florida Deceptive and Unfair Trade Practices Act, Section 501.201 et seq., Florida Statutes.

§81.3 Conditions of Approval.

Broker approval is conditioned on written evidence in the transaction file that:

- (a) the seller has been advised in writing to consult an attorney;
- (b) any existing lender and loan has been disclosed, and the due on sale risk has been disclosed in writing to both parties;
- (c) the buyer's identity and source of funds are documented;
- (d) for an assignment of contract, the assignment fee is disclosed on the settlement statement.

§81.4 Advertising Prohibition.

The Associate must not advertise or publish "we buy houses," "cash offer," "any condition," or substantially similar wholesaler style messaging under the Aari Realty LLC name, license, or branding, or in any advertisement identifying the Associate as affiliated with the Company.

§81.5 Violation.

Engaging in a transaction described in Section 81.1 without prior written Broker approval, or failing to satisfy any condition of an approval under Section 81.3, is grounds for immediate termination. Violation of any other provision of this Section is a compliance matter addressed under Section 8 and may result in termination where repeated or willful.

§82. COMMISSION CLAWBACK AND DISGORGEMENT

§82.1 Reimbursement Obligation.

If any commission previously disbursed to the Associate is later reduced, refunded, reversed, disputed, rescinded, or required to be returned for any reason, including transaction cancellation, escrow or closing agent error, commission dispute, court order, settlement, arbitration award, regulatory action, lender clawback, wire fraud, or misrepresentation, the Associate is responsible for reimbursing the Company the full affected amount.

§82.2 Offset and Payment.

The Company may offset the amount against any future commission or other funds payable to the Associate. If offsets are insufficient, the Associate must remit payment within ten (10) business days of written notice. Offsets under this Section are subject to the caps, notice requirements, and release deadlines stated in Section 7, Section 10, and Section 72, as applicable to the underlying obligation.

§82.3 Fraudulent or Void Transactions.

If a transaction is determined to be fraudulent, void, voidable, or rescinded, any commission previously paid on that transaction was never earned and must be returned in full upon written demand. The offset limitations in Section 7 of the Independent Contractor Agreement do not apply to amounts recoverable under this subsection.

§82.4 No Duty to Pursue Third Parties.

The Company is not obligated to pursue collection from any third party before seeking reimbursement from the Associate.

§82.5 Enforcement Costs.

In any action to collect amounts owed under this Section, whether brought by the Company or the Associate, the prevailing party is entitled to recover reasonable attorneys' fees and collection costs.

§82.6 Survival.

This Section survives termination and applies regardless of the Associate's affiliation status at the time the reversal, reduction, or determination is discovered.

§83. LISTING TRANSFER ON DEPARTURE

§83.1 Company Property.

All listing agreements, buyer brokerage agreements, and representation agreements are the property of Aari Realty LLC.

§83.2 Transfer Request.

Upon termination, the Associate may submit a written request to transfer active listings to the Associate's new brokerage. Approval is at the Broker's sole discretion and requires written seller consent.

§83.3 Transfer Execution.

Where a transfer is approved by the Broker in writing, the transfer takes effect on the date the Broker's written approval is issued or on such later date as the approval specifies. No fee applies to the transfer of a listing under this Section.

§83.4 Listings Not Transferred.

Where a listing is not transferred, whether because no transfer request is submitted, the request is not approved, seller consent is not obtained, or the transfer otherwise does not take effect, the listing remains with Aari Realty LLC and may be reassigned to another Associate. No compensation is owed to the departing Associate on the eventual closing of a listing that is not transferred.

§83.5 Pending Transactions.

Any transaction under a fully executed contract at the time of termination remains under Aari Realty LLC supervision and control through closing, regardless of whether any related listing is transferred. Compensation is governed by the ICA, the Commission Structure Addendum, and the Post Departure Compensation Addendum.

§83.6 Anti Evasion.

Any attempt to cancel, withdraw, terminate, or allow the expiration of a listing agreement or buyer brokerage agreement for the purpose of avoiding Company compensation rights or the listing transfer process, followed by relisting or re representing the same client through another brokerage, constitutes interference with Company business relationships and a Material Breach. Aari Realty LLC retains full compensation rights under any protection period contained in the original agreement.

§83.7 Code of Ethics.

The Associate acknowledges the obligations of Standard of Practice 16-20 of the NAR Code of Ethics regarding conduct upon changing brokerage affiliation.

§84. TELEPHONE, TEXT, AND ELECTRONIC SOLICITATION

§84.1 Compliance Required.

The Associate must comply with the Telephone Consumer Protection Act, 47 U.S.C. 227, the CAN-SPAM Act, the Florida Telemarketing Act, the Florida Do Not Call provisions of Section 501.059, Florida Statutes, and all FCC and FTC regulations governing telephone, text, and electronic solicitation.

§84.2 Do Not Call Scrubbing.

The Associate must scrub every number against the federal Do Not Call Registry and the Florida Do Not Call list before any solicitation call or text, and must retain evidence of the scrub.

§84.3 Internal Do Not Call List.

The Associate must maintain an internal do not call list, honor every opt out request promptly, and document the date and method of each opt out.

§84.4 Calling Hours.

The Associate must not place solicitation calls or texts before 8:00 AM or after 8:00 PM in the recipient's time zone.

§84.5 Identification.

The Associate must identify themselves by the name on their license and must identify Aari Realty LLC on every solicitation call and in every solicitation text or email.

§84.6 Consent.

Where prior express written consent is required, the Associate must obtain it and retain written evidence of it for five (5) years. Consent records must be produced to the Broker on request.

§84.7 Established Business Relationship.

An established business relationship exemption may be relied on only where the relationship, its basis, and the date it arose are documented in writing and retained by the Associate. The documentation must be produced to the Broker on request. Where the Broker designates a system of record in writing, the Associate must document the relationship in that system.

§84.8 Automated Platforms.

The Associate must not use any automatic telephone dialing system, predictive dialer, ringless voicemail, prerecorded or artificial voice message, or mass or bulk SMS platform without prior written Broker

approval.

§84.9 Contact Lists.

The Associate must not import, purchase, rent, scrape, or upload any contact list the Associate did not personally generate with documented consent.

§84.10 Third Party Tools.

The Associate is solely responsible for the compliance of every CRM, dialer, texting platform, lead vendor, or automation tool the Associate uses, including any tool made available through the Company as an optional add on. Availability of a tool through the Company is not approval of any particular use of it.

§84.11 Liability.

The Associate indemnifies the Company for all claims, statutory damages, penalties, and costs arising from the Associate's violation of this Section. This obligation survives termination.

§85. REPORTING DEADLINES

§85.1 Single Schedule.

This Section is the only source of reporting deadlines in the ICA and all Incorporated Documents. Where any other document states a reporting obligation, this schedule controls the deadline.

§85.2 Tier 1.

Within four (4) hours of discovery, with no exception for evenings, weekends, or holidays:

- (a) suspected or completed wire fraud;
- (b) any data breach or unauthorized access to Company systems, client files, or transaction data;
- (c) compromise of any email account, the Associate's or a client's;
- (d) suspected seller or party impersonation;
- (e) any request or instruction to change wire or payment instructions.

§85.3 Tier 2.

Within twenty four (24) hours of receipt or discovery:

- (a) any claim, demand, or threat of legal action;
- (b) service of process, subpoena, or discovery request;

- (c) any inquiry, complaint, or contact from DBPR, FREC, or any regulatory body;
- (d) any MLS inquiry, citation, or fine;
- (e) any change to the Associate's license status, including expiration, discipline, or lapse;
- (f) any arrest, charge, or conviction reportable under Section 475.25, Florida Statutes.

§85.4 Method.

Tier 1 reports must be made by direct telephone contact with the Broker and confirmed in writing. Written notice alone does not satisfy Tier 1. Tier 2 reports may be made in writing.

§85.5 No After Hours Exception.

Tier 1 deadlines run continuously. Discovery outside business hours does not extend the deadline.

ACKNOWLEDGMENTS

W-9 Collection & Tax Acknowledgment

This acknowledgment must be completed at onboarding. No commission disbursement will be made to the Associate until a valid IRS Form W-9 is received by Aari Realty LLC.

W-9 Submission

§86.1

The Associate confirms they have completed and submitted to Aari Realty LLC a valid IRS Form W-9 containing their legal name, business name or DBA (if applicable), federal tax classification, Taxpayer Identification Number (TIN) or Social Security Number (SSN), and certification signature.

§86.2

The Associate acknowledges that Aari Realty LLC is required by federal law to obtain a completed W-9 prior to issuing any commission payments. Failure to provide a valid W-9 will result in commission withholding until the form is received.

§86.3 Tax Reporting Acknowledgment

The Associate acknowledges and understands that:

- They are engaged as an independent contractor, not an employee of Aari Realty LLC
- Aari Realty LLC will not withhold federal income tax, Social Security tax, or Medicare tax from commission payments
- Aari Realty LLC will issue a Form 1099-NEC for each calendar year in which the Associate receives commission payments totaling \$600.00 or more
- The Associate is solely responsible for all federal, state, and local tax obligations, including estimated quarterly tax payments
- The Associate must notify Aari Realty LLC in writing within thirty (30) days of any change to their legal name, TIN, SSN, or tax classification requiring an updated W-9

§86.4 Backup Withholding

The Associate acknowledges that Aari Realty LLC may be required by the IRS to apply backup withholding if: the Associate fails to provide a TIN; the IRS notifies Aari Realty LLC that the TIN

provided is incorrect; or the Associate fails to certify that they are not subject to backup withholding. The Associate certifies that the information provided on their W-9 is accurate and complete.

License Verification & Active Status Acknowledgment

This acknowledgment is required before the Associate may conduct any real estate activity under Aari Realty LLC's brokerage license.

§87.1 License Information

Full Legal Name, Florida License Number, License Type (Sales Associate or Broker Associate), License Status at Onboarding, License Expiration Date, and DBPR Profile Email are collected and verified at onboarding.

Associate Acknowledgments

§87.2 Active License Required.

The Associate must maintain an active, current, and unrestricted Florida real estate license in good standing with DBPR at all times during their affiliation with Aari Realty LLC.

§87.3 Sole Responsibility.

The Associate is solely responsible for monitoring their license expiration date, completing all required continuing education, and renewing their license on time. Any verification the Company performs is a supervisory measure only and does not relieve the Associate of this responsibility.

§87.4 Immediate Notification Required.

The Associate must notify the Qualifying Broker in writing within twenty-four (24) hours of any change to their license status, including: license expiration or failure to renew; suspension or revocation; voluntary surrender or inactivation; disciplinary action by DBPR or FREC; or any investigation, complaint, or proceeding initiated by DBPR, FREC, MLS, or NAR.

§87.5 Consequence of Inactive License.

Any real estate activity conducted under an inactive, suspended, expired, or revoked license constitutes a violation of Florida Statute §475.42 and grounds for immediate termination of the Independent Contractor Agreement and reporting to DBPR. Compensation is not payable on any transaction in which the Associate performed licensed activity while the Associate's license was inactive, suspended, or expired, consistent with Florida Statute §475.42. Commissions earned on transactions in which the Associate performed all licensed activity while properly licensed remain payable and are released when the

Associate's license is restored to active status, subject to any offset the Company is otherwise entitled to apply.

§87.6 Continuing Education and License Renewal.

The Associate is solely responsible for completing all continuing education requirements mandated by DBPR and for renewing the license on time. The Company does not track continuing education. The Associate must upload current license documentation to the Company's compliance platform within ten (10) business days of each renewal. Any change in license status is reported under Section 87.4.

§87.7 Broker Verification

Aari Realty LLC confirms that the Associate's license was verified as active and in good standing through the DBPR online verification system as of the date of this acknowledgment. The Company may verify license status at any time. Ongoing responsibility for maintaining an active license, completing continuing education, renewing on time, and uploading current license documentation to the platform or channel designated by the Broker rests solely with the Associate.

Affiliated Business Disclosure: RESPA Compliance

This disclosure is required under the Real Estate Settlement Procedures Act (RESPA), 12 U.S.C. §2607(c)(4), and must be signed at onboarding by all Associates affiliated with Aari Realty LLC.

§88.1 Affiliated Business Relationships

Aari Realty LLC discloses that it has affiliated business relationships with the following entities under common ownership by Marlenyi Paredes:

ENTITY	SERVICES PROVIDED	RELATIONSHIP
Aari Transactions LLC	Transaction coordination, file organization, compliance support	Under common ownership with Aari Realty LLC
Aari Referrals LLC	Referral-only real estate affiliation and referral fee processing	Under common ownership with Aari Realty LLC

Associate Obligations

§88.2 Nature of the Relationship.

Aari Transactions LLC provides transaction coordination and related services to Associates, not to clients. The Associate is the customer and bears the cost. No client is referred to, charged by, or required to use any affiliated entity for any settlement service. Aari Referrals LLC receives referrals from licensees outside the Company and any referral fee is paid from compensation earned by the Company or the Associate, not charged to any client.

The Associate must provide each client with the Company's written Affiliated Business Disclosure at or before the time a representation agreement is signed, and must obtain the client's signature. The disclosure is provided because the Company discloses its ownership relationships as a matter of policy, and is not conditioned on any referral to an affiliated entity.

§88.3 No Required Use.

Clients are under no obligation to use the services of any affiliated entity. Clients may use any qualified service provider of their choice. The Associate shall not represent or imply to any client that use of an affiliated entity is required.

§88.4 No Additional Compensation.

The Associate will not receive any referral fee, bonus, or additional compensation from any affiliated entity beyond the compensation structure set forth in Exhibit A: Commission Fee Schedule.

Legal Reference: This disclosure is made pursuant to RESPA Section 8(c)(4), 12 U.S.C. §2607(c)(4), and the affiliated business arrangement disclosure requirements of the applicable RESPA implementing regulations as currently in effect. This disclosure does not constitute legal advice. Associates should consult with a licensed attorney regarding their individual compliance obligations.

MLS Rules Acknowledgment

This acknowledgment must be signed at onboarding before the Associate may access or use any MLS system under Aari Realty LLC's membership. Aari Realty LLC maintains membership in multiple MLS boards. The Associate's obligations under this Acknowledgment apply equally to all boards through which they conduct business.

§89.1 MLS Membership Information

Associate Full Legal Name, Primary MLS Board, MLS Member ID (Primary Board), Additional MLS Boards (if any), and Florida License Number are collected and verified at onboarding.

Associate Acknowledgments

§89.2 Receipt of MLS Rules.

The Associate has received, reviewed, and agrees to comply with the current rules and regulations of all MLS boards through which they conduct business under Aari Realty LLC's membership, as amended from time to time. Current rules are available through each respective MLS board's member portal.

§89.3 Multiple Board Compliance.

Where the Associate participates in more than one MLS board, they are responsible for knowing and complying with the specific rules of each board. Rules vary by board. The more restrictive rule applies in all cases of conflict unless the Broker directs otherwise in writing.

§89.4 Listing Submission, Cooperation & Public Marketing

The Associate must comply with the listing submission, cooperation, and public marketing rules of each MLS in which the Associate participates, as those rules exist at the time of the transaction. The applicable MLS defines what constitutes public marketing, what triggers the submission obligation, and the deadline that applies. Those definitions and deadlines vary by board and are published by each board. The Associate is responsible for knowing and following the current rule of every board in which the Associate participates.

Where a seller directs that a property not be submitted to or publicly marketed through an MLS, the Associate must satisfy that MLS's own requirements for the election before any advertising of the property occurs. Some boards require a signed owner agreement or written notice to be filed with the board itself, and a document held only in the Company's file does not satisfy that requirement. The

Associate must complete the board's process and upload proof of the board filing, together with the seller's written instruction, to the compliance platform.

Company file completion (not an MLS deadline): Listing-agreement upload to the Company's compliance platform is governed by Section 65.

§89.5 Practice-Change Compliance.

The Associate must comply with all NAR practice-change requirements and all MLS rule changes tied to them, as those requirements and rules exist at the time of the transaction, across every board in which the Associate participates. Those requirements and rules change on the schedule of NAR and each MLS. The Associate is responsible for knowing the current version.

§89.6 MLS Fines.

Any fine, penalty, or sanction imposed by any MLS board as a result of the Associate's violation of MLS rules is the Associate's sole financial responsibility. Aari Realty LLC reserves the right to offset any MLS fines paid by the brokerage on the Associate's behalf against future commission disbursements. Offsets under this Section are subject to the caps, notice requirements, and release deadlines stated in Section 7, Section 10, and Section 72, as applicable to the underlying obligation.

§89.7 Broker Notification.

The Associate must notify the Qualifying Broker within twenty-four (24) hours of receiving any MLS inquiry, fine notice, complaint, or disciplinary communication from any MLS board.

§89.8 Rule Updates.

The Associate is responsible for monitoring communications from all MLS boards in which they participate and remaining current on all rule changes. Lack of awareness of a rule change is not a defense to a violation.

§89.9 Broker Rights

Aari Realty LLC reserves the right to review all MLS activity by affiliated Associates across all boards and to conduct periodic compliance audits. MLS rule violations constitute a Compliance Issue or Material Breach under the Independent Contractor Agreement, depending on severity and frequency, and may result in suspension or termination of affiliation.

Buyer Brokerage Agreement Policy Acknowledgment

This acknowledgment is required in connection with the NAR practice-change requirements applicable to buyer representation, and must be signed at onboarding before the Associate may represent any buyer client.

§90.1 Background

Under NAR practice-change requirements, a written Buyer Brokerage Agreement between the Associate and the buyer client is required before any property is toured. The MLS rules of every board in which the Associate participates incorporate this requirement, and the Qualifying Broker's supervisory obligations under Florida law apply. The Associate is responsible for knowing the current NAR requirement, the current rule of each applicable board, and the current Florida supervisory rule at the time of the transaction.

Mandatory Requirements

§90.2 Written Agreement Before Touring.

The Associate must obtain a signed, written Buyer Brokerage Agreement with every buyer client before conducting any property showing, tour, or property preview on the buyer's behalf, whether in person, virtually, or by any other means.

§90.3 Approved Forms Only.

The Associate must use only Company-approved Buyer Brokerage Agreement forms or Florida Realtors/Florida Bar approved forms. The Associate may not draft, create, or modify buyer representation agreements without prior written Broker approval.

§90.4 Compensation Terms.

All buyer broker compensation terms must be clearly disclosed in the Buyer Brokerage Agreement. The Associate may not make any verbal representations about compensation that differ from the written agreement.

§90.5 No MLS Compensation Offers.

The Associate must not communicate or offer buyer broker compensation through any MLS field or MLS-facilitated channel where the applicable NAR requirement or the applicable board's rule prohibits it.

Because these requirements and rules vary by board and change on NAR's and each board's schedule, the Associate is responsible for knowing the current rule of every board in which the Associate participates before publishing any listing.

§90.6 Broker Submission.

Buyer Brokerage Agreement submission to the compliance platform is governed by Section 50.

§90.7 Client Disclosure.

When presenting the Buyer Brokerage Agreement to clients, the Associate must clearly explain: (a) what services are being provided; (b) the compensation structure; (c) the duration of the agreement; and (d) that compensation amounts are negotiable and not set by law.

§90.8 No Waiver or Circumvention.

The Associate may not show property to any buyer without a signed agreement, regardless of the buyer's objection, reluctance, or claim that another agent has already shown the property.

§90.9 Consequences of Non-Compliance

Failure to obtain a signed Buyer Brokerage Agreement before showing property constitutes a Compliance Issue under the Independent Contractor Agreement and may result in: written warning and mandatory compliance review; commission withholding on the affected transaction; suspension of transaction privileges; termination of affiliation for repeated violations; and reporting to FREC if the violation constitutes a breach of supervisory obligations.

Wire Fraud & Cybersecurity Acknowledgment

This standalone acknowledgment supplements the wire safety provisions in the Independent Contractor Agreement and creates an independent record of the Associate's awareness of wire fraud risks and protocols. It must be signed at onboarding.

Wire Fraud: Absolute Prohibition

§91.1 No Transmission of Wire Instructions.

The Associate is strictly prohibited from transmitting, forwarding, drafting, creating, or relaying wire transfer instructions, banking information, or funds transfer details to any party, including clients, buyers, sellers, lenders, or title companies, by any means, including email, text message, social media, or any electronic communication platform.

§91.2 Verbal Verification Required.

All wire instructions must be verified directly by the client with the receiving title company or escrow agent by telephone, using a phone number independently obtained from a trusted source, not a phone number provided in any email or electronic communication.

§91.3 No Screenshots or Attachments.

The Associate must never forward, photograph, screenshot, or otherwise transmit images, PDFs, or documents containing wire instructions or banking information.

§91.4 Client Warning Obligation.

The Associate must proactively warn every buyer and seller client in writing about the risk of wire fraud at or before contract execution. This warning must be documented in the transaction file.

Cybersecurity Obligations

§91.5 Email Security.

The Associate must use secure, password-protected email accounts for all real estate communications. Shared or unsecured email accounts may not be used for client communications involving financial information.

§91.6 Suspicious Activity Reporting.

The Associate must report any suspected phishing attempt, email compromise, unauthorized account access, or attempted wire fraud to the Qualifying Broker in accordance with the reporting deadlines in Section 85 of the Operations and Compliance Manual.

§91.7 Device and Network Security.

The Associate must not access, transmit, or store client files, transaction documents, or financial information over an unsecured public wireless network. The Associate is responsible for the security of every device used to conduct Company business, including current operating system updates, device passcode or biometric lock, and secure storage of credentials.

§91.8 Incident Response Protocol

If the Associate suspects that a wire fraud attempt has occurred, is in progress, or has been completed, the Associate must immediately:

- Notify the Qualifying Broker in accordance with the reporting deadlines in Section 85 of the Operations and Compliance Manual
- Contact the title company or escrow agent immediately
- Preserve all communications, do not delete any emails or messages
- Do not communicate with the suspected fraudulent party
- File a report with the FBI's Internet Crime Complaint Center (IC3) at ic3.gov
- Contact local law enforcement if funds have been transferred
- Make no admission of fault, apology, or statement of liability without prior written authorization from the Qualifying Broker

§91.9 Consequences of Violation

Violation of Section 91.1, Section 91.3, Section 91.4, Section 91.6, or Section 91.8 constitutes an immediate termination event under Section 12 of the Independent Contractor Agreement. Violation of any other provision of this Acknowledgment is a compliance matter addressed under Section 8 and the Operations & Compliance Manual, and may result in termination where repeated or willful. The Associate may be held personally liable for all losses, damages, investigation costs, remediation expenses, legal fees, and regulatory fines arising from their violation of these protocols, as set forth in the Indemnification & Defense Addendum.

Confirmation of Communication

By signing this Agreement, the Associate confirms that all notices, disclosures, and communications from Aari Realty LLC may be delivered electronically to the email address and phone number on file with the Brokerage. The Associate is responsible for keeping this contact information current and agrees to notify the Brokerage in writing of any changes.

VERSION HISTORY

Each entry lists the effective date, the sections affected, and a one-line summary of the change. This block is the only place in the document that carries revision dates. Revision notes shall not appear inside the body of any operative provision. Entries in this block describe changes in general terms. They do not quote, cite, or name the specific statutes, rules, boards, or regulations that were removed or corrected. Where a later amendment changes or removes a rule described in an earlier entry, the earlier entry shall be corrected so that no entry describes a rule the document no longer contains.

• **August 15, 2026 · §55 (Broker Execution & Review Addendum):** Broadens Associate authority to execute on behalf of the Company on standard contracts, compensation, and referral agreements. Establishes retained counsel as the exclusive channel for arbitration, mediation, and litigation matters, including the arbitration provision within any real estate contract.

• **August 15, 2026 · §89.5, Buyer Brokerage Ack intro, §90.1, §90.5, §88 Legal Reference:** Removes dated NAR practice-change restatements, removes board-specific naming, removes an incorrect Florida statute citation, and replaces an obsolete federal regulation citation with a rule-neutral reference. Rewrites four passages rule-neutral.

• **August 15, 2026 · §6, §7, §28, §50, §55, §60, §64.2, §73.3:** E&O retention capped at the current policy declarations amount with a \$1,000 payment-plan trigger. E&O exclusions expanded to match actual carrier endorsement. Personal-Transactions E&O exclusion cross-referenced in every Personal-Transactions provision. Post-Termination Compensation Floor trigger defined and made controlling over §73.3 Broker discretion. §50 file-submission citation corrected to §475.5015 and FREC Rule 61J2-10.030. Revision stamp relocated from §55 body to this Version History block.

• **August 15, 2026 · §11, §38–§44, §86–§92, new Acknowledgments header, ica-print.html:** Unified top-level section heading levels. Every §-numbered section is now h3. Reserved h2 for document-level titles. Added a parent Acknowledgments header. Removed a legacy page-break-only h2 title above §11. Adopted an explicit data-page-break attribute so PDF page breaks are opt-in and controlled at the heading itself. Anchor ids and prose unchanged.

• **August 15, 2026 · §7, §8, §18, Incorporated Documents list:** Replaced an undefined qualitative trigger inside the Post-Termination Compensation Floor with a concrete, act-based standard the Associate can verify against their own conduct. Removed references to an Incorporated Document that had no defined section, replacing them with pointers to the actual controlling sections. Removed a second phantom entry from the Incorporated Documents list.

• **August 15, 2026 · §42:** Added a Company administrative processing fee to Exhibit A, applied per occurrence when the Company receives, processes, disburses, or refunds funds outside of a standard sale closing, or processes a cancellation, withdrawal, or termination of an executed contract. Cured a dangling Exhibit A reference from an earlier section on Abandoned Commissions.

• **August 16, 2026 · §18:** Added a Notice and Version Control provision immediately after the existing Modification and Notice paragraph. Specifies the channels by which amendments may be delivered, confirms amendments apply prospectively only, and obligates the Company to maintain version control for this Agreement and all Incorporated Documents, with current and historical versions accessible to the Associate on request. Existing Modification and Notice paragraph unchanged.

• **August 16, 2026 · §42:** Clarified the triggering events for the administrative processing fee and confirmed that it does not apply where a transaction fee is charged for the same event.

• **August 16, 2026 · §42:** Added an express carve-out so that a file deemed an Abandoned Commission under the Operations & Compliance Manual carries the administrative processing fee even where a transaction fee was already charged on the underlying transaction. Failure to complete a file is treated as a separate administrative event.

• **August 16, 2026 · §57:** Rewrote the Advertising Policy rule-neutral. Removed language that restated a stricter internal reach than the governing rule requires by narrowing the identification obligation to advertisements as defined by the current FREC and MLS rules, deleting a category broader than advertisements, and dropping a static-profile requirement the Company does not intend to own. Preserved the brokerage-identification requirement on advertisements, the prominence rule, the team-name and DBA prior-written-approval requirement, the silence-is-not-approval rule, and the prohibition on misleading content.

• **August 16, 2026 · §4, §65:** Consolidated advertising and broker-identification rules to a single operative section. In §4, narrowed the pre-approval trigger from a category that reached beyond advertising to advertising and marketing only. In §65, deleted a definitional expansion that treated all social media posts as advertisements and replaced the identification restatement with a cross-reference to the governing section, so the identification rule is stated once and in one place. MLS-specific procedural obligations in §65 were preserved.

• **August 16, 2026 · §55.5, §67:** Separated the two functions the CDA performs and added the mechanics of disbursement. Rewrote §67.1 to state that the CDA is the Company's written instruction to the settlement agent for every transaction in which the Company is entitled to compensation, with conflict disclosure added where a defined conflict exists. Added a new §67.2 stating that commission may be disbursed either through the Company or, at the Associate's election and subject to conditions, split at closing directly by the settlement agent. Renumbered the prior §67.2 file-completion and payment provision to §67.3, unchanged. Added one sentence to §55.5 tying file completion to the CDA-transmission gate.

• **August 16, 2026 · §7, §67.1:** Added a general Associate obligation to sign disbursement instructions, authorizations, and closing statement acknowledgments the Company or settlement agent presents in connection with a CDA, and to return any funds disbursed in error or in excess of the Associate's share within five business days. Added one sentence to the §7 Commission Timing paragraph so the three-business-day rule is not read to apply where split disbursement at closing has been elected and its conditions are met.

• **August 16, 2026 · CSA §23, §72.2:** Replaced three qualitative triggers with concrete, act-based standards the Associate can verify. In §72.2, capped E&O withholding at the policy declarations retention plus documented actual losses attributable to the Associate, added a five-business-day written-documentation duty on the initial withholding,

added a per-disbursement release-down-to-cap review, added a ninety-day quiet-period release, and added a one-year outer-limit release absent a filed lawsuit, arbitration demand, or written settlement demand (or a Broker written extension). In CSA §23, replaced the open-ended delay standard with a three-business-day notice-and-cure structure and a thirty-day outer limit where the issue is not attributable to the Associate. In CSA §23 condition (2), broadened the funds-received test to reconcile with Split Disbursement at Closing under §67.2, so the Associate's share is treated as received when disbursed by the settlement agent at closing.

• **August 16, 2026 · §1, §55:** Reconciled the signing-authority conflict between the general no-authority-to-bind rule and the categories of documents the Associate is authorized to execute on behalf of the Company. In §1, replaced the per-transaction power-of-attorney requirement with a carve-out that defers to the operative section on Associate execution and preserves personal liability for any commitment made outside that section or a specific written authorization. In §55, added an opening supersedes clause so the signing-authority rule stated there controls over any contrary statement in this Agreement or any Incorporated Document, as required by the order-of-precedence rule in §18.

• **August 16, 2026 · §51:** Aligned the review-and-approval section with the signing-authority rule stated in §55, so an Associate reading §51 alone reaches the same result as one reading §55. Narrowed the flat prior-approval requirement to a carve-out that defers to §55 for the categories §55 authorizes and points the reader to that section for the operative execution rule.

• **August 16, 2026 · §2:** Defined the trigger and removed the unenforceable remedy. Added a definition of brokerage activity tied to Chapter 475 that lists the acts requiring a Florida real estate license and enumerated the categories that do not qualify, including personal principal transactions, ownership or investment in the Associate's own real property (subject to the property-management section), other-field licensing not used to perform real estate brokerage, and non-license-required employment. Set a written-approval process for outside affiliations with a ten-business-day Broker response window and a silence-is-not-approval rule. Replaced outright forfeiture of pending commissions with a withhold-and-offset structure limited to documented actual loss, with a thirty-day release after written determination and a ninety-day outer limit absent a written Broker extension.

• **August 16, 2026 · §8:** Removed the forfeiture remedy from the transaction-compliance section, leaving withholding, suspension, and termination as the available consequences of non-compliance. Added a withhold-and-offset structure limited to documented actual loss arising from the non-compliance, with a thirty-day release after the Associate cures the deficiency.

• **August 16, 2026 · §3:** Added a Client Funds and Escrow paragraph inside the Associate Responsibilities section so the ICA body puts the Associate on notice of the Company's no-escrow rule and the never-touch-client-funds prohibition. The paragraph names the consequence (Material Breach, immediate termination, reporting to DBPR) and points to the operative section for full requirements. The operative section is not changed by this entry.

• **August 16, 2026 · §3:** Added a Federal Reporting Designations paragraph inside the Associate Responsibilities section so the ICA body puts the Associate on notice that they may not accept any federal reporting designation on behalf of the Company from title companies, closing agents, or attorneys. The paragraph names the consequence

(Material Breach) and points to the operative section for full requirements. The operative section is not changed by this entry.

• **August 16, 2026 · §10, §46:** Bounded the third-party commission-dispute withholding rule. Replaced the unlimited-withholding sentence in §10 with an amount-in-dispute standard that requires the undisputed portion to be disbursed in the ordinary course, a five-business-day written notice of any withholding stating amount, claimant, and basis, a ninety-day release if no arbitration, mediation, or legal proceeding has been initiated (absent a written Broker extension), and an additional written statement of basis within five business days where the withheld amount exceeds half of the total commission and no proceeding has been filed. Replaced the parallel unlimited-withholding sentence in §46 with a one-sentence amount-in-dispute standard that defers to §10 for the notice and release mechanics. Administrative cost allocation language in §46 unchanged.

• **August 17, 2026 · §4:** Rewrote the Fair Housing Compliance section as an operative provision. Named the governing federal, state, and local laws by category as they exist at the time of the conduct. Stated the channels the obligation reaches, including MLS remarks and listing content, advertising and marketing, websites and social media, verbal and written communications, and descriptions of properties and neighborhoods. Added a Company right to correct, modify, or remove listing content, advertisement, or marketing material that in the Broker's determination presents a fair housing risk, without prior authorization from the Associate and with notice after the fact. Restated the fourteen-day fair housing training and proof-of-completion requirement in the ICA body, on the same deadline as the Fair Housing Policy section, and pointed to that section for the full policy including prohibited conduct. Named the U.S. Department of Housing and Urban Development alongside FREC as a reporting destination for violations.

• **August 17, 2026 · §5:** Removed a duplicated Company-property return schedule from the Confidentiality section and left a single cross-reference to the section that already contained the same schedule, so the schedule now lives in one place. Added a carve-out inside the Post-Termination Restrictions confirming that the Associate's use of contact information and transaction history for clients the Associate personally generated is not restricted by this Section, subject to the non-disclosure and no-solicitation limits stated in the carve-out. Replaced an undefined permitted-use standard in the Use Restriction with a concrete standard tied to completing transactions for clients procured through the Company and to performing the Associate's obligations under this Agreement, with any other use requiring the Company's prior written consent. Corrected a capitalized term inside the Post-Termination Restrictions to point to the operative definition in the Client Ownership section.

• **August 17, 2026 · §69.1:** Removed the same three-part Company-property return schedule from the Termination Addendum and replaced it with a single cross-reference to the section that already contained the schedule, completing the single-source consolidation begun in the prior entry. The schedule now lives in exactly one place.

• **August 17, 2026 · §7:** Bounded the disbursement-extension power inside Commission Timing so the three-business-day rule remains enforceable. An extension may not exceed ten business days unless the delay arises from a compliance issue, a dispute, or an offset the Broker identifies in the extension notice, in which case the extension continues until that matter is resolved. Added the consequence to Abandoned Commissions inside the ICA body so failure to submit the compliance file and disbursement documents within the stated period, or a file otherwise deemed abandoned under the Operations & Compliance Manual, carries the Administrative Processing Fee set forth in Exhibit A. Removed the

restatement of the Conditions Precedent to Payment from the Commission Timing paragraph and replaced it with a cross-reference to the Conditions Precedent to Payment paragraph immediately above, so the conditions live in one place. Split disbursement sentence and extension mechanics stay.

• **August 17, 2026 · §67.3:** Consolidated disbursement timing to a single location. Removed the CDA Workflow Addendum's restatement of the three-business-day rule and its uncapped extension sentence, and replaced both with a single cross-reference so disbursement timing, including any permitted extension, is governed only by the Compensation section. Resolves the divergence in which one section carried the capped extension rule and the other carried an uncapped restatement of the same rule.

• **August 17, 2026 · §7:** Aligned the Conditions Precedent to Payment paragraph to the Commission Structure Addendum. Removed the ICA restatement of the earning test and pointed to the Commission Structure Addendum section that already states the earning conditions as the sole governing text. Separated earning from payability and stated expressly that Good Standing affects when an earned commission is paid but does not un-earn a commission that was earned before the Associate fell out of Good Standing; the earned amount remains owed and is released when Good Standing is restored, subject to any offset the Company is otherwise entitled to apply. Removes the accidental accrued-compensation-forfeiture reading the prior draft produced when read together with the Good Standing definition.

• **August 17, 2026 · §87.5:** Narrowed the inactive-license consequence to what is unenforceable at law. Replaced the blanket forfeiture-of-pending-commissions remedy with a statute-scoped rule under which compensation is not payable on transactions in which the Associate performed licensed activity while the Associate's license was inactive, suspended, or expired. Commissions earned on transactions in which the Associate performed all licensed activity while properly licensed remain payable and are released when the Associate's license is restored to active status, subject to any offset the Company is otherwise entitled to apply. Immediate termination and reporting to DBPR preserved.

• **August 16, 2026 · Exhibit A §42, §8, §69.2:** Added a file-completion consequence framework for commissions that remain unclaimed or files that remain incomplete after closing. Superseded by the August 18, 2026 entry below; the current file-completion regime is set forth in the current text of Exhibit A §42 and consists of capped administrative fees and a single percentage fee for late closing documentation, assessed against commission proceeds rather than retained from them. The rule that a commission, once earned, is not un-earned by later conduct remains governed by the Commission Structure Addendum Section 23 and Section 7.

• **August 16, 2026 · §9 and §7:** Rewrote the Personally Generated Client test so that origination rather than timing controls, added a definition of Company-Generated Lead, preserved the Section 15 path in the lead classification appeal, and limited the Post-Termination Compensation Floor to transactions originating from Personally Generated Clients. Transactions originating from Company-Generated Leads are excluded from the floor. This limitation is deliberate.

• **August 17, 2026 · §9, §7, §46, §63.1:** Closed three seams uncovered in the prior entry's report. Added a notice-at-assignment requirement inside the Company-Generated Leads paragraph, with a presumption in favor of Personally

Generated Client status for purposes of the Post-Termination Compensation Floor where the Broker did not identify the lead as Company-Generated in writing at the time of assignment; the presumption is rebuttable by source documentation predating the assignment, and the Associate's appeal and Section 15 claim path are preserved. Leads assigned before the effective date of the provision remain classified under the rule in effect at the time of assignment. Added a subordination sentence to the Post-Termination Commissions paragraph clarifying that it is subject to the Post-Termination Compensation Floor and its Company-Generated Lead exclusion. Consolidated the Company-Generated Lead definition to a single substantive source in the Client Ownership section by replacing the Definitions block entry with a pointer to that section. Added a cross-reference in the Company Leads Addendum lead-ownership paragraph pointing lead classification and the written notice requirement to that section.

• **August 17, 2026 · §10, §47:** Added a Decision to Pursue or Defend paragraph to the Referral & Co-Agent Commission Disputes section stating that the Broker decides in sole discretion whether the Company pursues or defends any procuring cause claim or related proceeding involving a commission, that the Associate may not initiate, file, or respond on the Company's behalf, and that where the Broker declines the Associate may request in writing to pursue at the Associate's expense subject to Broker consent with the Associate bearing all fees and costs regardless of outcome and any recovery net of costs and Company entitlements; the allocation of Company-decision costs continues to be governed by the section on Commissions and Collections. Corrected a stale cross-reference in the Company Property and Records section pointing to the section where the return schedule now lives.

• **August 17, 2026 · §11:** Rewrote the Indemnification section from a pointer paragraph to an operative summary stating what the Associate is agreeing to. Named the categories of claims covered, the acts and omissions that trigger indemnity, the carve-out for claims arising solely from the Company's own negligence or willful misconduct, the twenty-four-hour written notice obligation, the Company's right to control defense and select counsel, the Company's withholding right subject to the cap, documentation requirement, and release deadlines stated in the Indemnification and Defense Addendum, and the survival of the obligation after termination. Removed the pointer to a document title that did not correspond to any section in this file and pointed the reader to the section where the complete terms live. The complete indemnification, defense, and offset terms in that section are unchanged and remain controlling.

• **August 17, 2026 · Incorporated Documents list, §14, §60:** Aligned the Incorporated Documents list to the actual section titles and added the section number in parentheses after each entry that corresponds to a numbered section, so the list becomes navigable rather than decorative. Corrected the entry for the Indemnification and Defense Addendum, the Errors and Omissions Addendum, and the Record Retention and Confidentiality section to match the section titles used in the body of the document, and standardized the inline shorthand in the Entire Agreement paragraph on the same form. Rewrote the Claims Reporting sentence in the Errors and Omissions Addendum so the twenty-four-hour notice wording matches the parallel provision in the Indemnification and Defense Addendum verbatim, and preserved the carrier and counsel cooperation language as an additional sentence rather than a substitute.

• **August 17, 2026 · §10:** Added a first-sentence pointer to the sections that carry the reporting obligations for claims, demands, complaints, investigations, and proceedings involving a commission, so a reader coming to the commission-dispute section immediately sees the notice hook rather than having to construct it from the Errors and Omissions Addendum, the MLS and Brand Standards Addendum, and the Defense, Insurance, and Offsets section separately.

• **August 17, 2026 · §12:** Rewrote the Term paragraph so it no longer states a fixed one-year term with automatic annual renewal. The Agreement now begins on the Effective Date and continues until terminated by either party under the same section, with no minimum term and no renewal requirement. Fee billing cycles are stated to run from the Associate's onboarding anniversary date and be governed by Exhibit A, so nothing in Exhibit A billing depends on the removed term language. Termination At-Will paragraph unchanged.

• **August 17, 2026 · §13:** Added a Compensation After Termination subsection to the Post-Termination Obligations section between the Client Ownership After Termination paragraph and the Survival heading, so a departing Associate reading the obligations section is pointed to the operative post-termination compensation rule. The subsection restates in one paragraph that commissions on pre-termination purchase-and-sale agreements remain payable subject to the standard conditions, that the Post-Termination Compensation Floor guarantees a minimum share for transactions originating from Personally Generated Clients, that the floor does not apply to transactions originating from Company-Generated Leads, and that the complete terms live in the operative section, which controls. No amount or floor condition is restated in this section.

• **August 17, 2026 · §14:** Added a client non-solicitation paragraph to the Non-Solicitation section, appended after the existing Associate/staff/contractor paragraph. For twelve months after termination the Associate may not directly or indirectly solicit, contact for the purpose of soliciting, or accept real estate business from any client, customer, or prospect that came to the Associate as a Company-Generated Lead as that term is defined elsewhere in this Agreement, except with Broker written consent. The restriction expressly does not reach Personally Generated Clients, does not prohibit general public advertising that is not targeted at specific individuals, and does not prohibit responses to unsolicited client-initiated contact where the Associate did not induce that contact. Compensation rights during any contractual protection period are addressed in a separate section and are not modified here.

• **August 17, 2026 · §15:** Rewrote three subsections of the Dispute Resolution section. The Written Notice Required First paragraph was replaced so that the internal notice window runs on calendar days rather than business days, and so that missing the internal notice window only waives access to the internal review and appeal process stated in this Section rather than any underlying claim, with express language preserving statutory limitations periods. The Attorneys' Fees paragraph was rewritten to be reciprocal on its face, so that in any action to collect amounts owed under this Agreement or any Incorporated Document the prevailing party recovers reasonable fees and costs regardless of which side brought the action, and so that the arbitrator or mediator may award fees and costs against a party that acted in bad faith or brought a frivolous claim. The Continued Performance paragraph was scoped so that it reaches obligations relating to transactions then in progress rather than every obligation in the Agreement, expressly does not require the Associate to perform obligations that are themselves the subject of the dispute, and does not prevent either party from terminating the Agreement under the termination section while a dispute is pending. Broker Review, Mediation First, Arbitration, No Class Actions, and Jury Trial Waiver paragraphs unchanged.

• **August 17, 2026 · §37, §75, §5, §82.5:** Propagated the Dispute Resolution consistency fix across the rest of the document so no provision reads against the operative dispute-resolution and fee-shifting rules. The Commission Matters dispute-notice sentence in the Commission Structure Addendum was rewritten to carry the same calendar-day notice window and the same internal-only waiver mechanism used in the Dispute Resolution section, with the same

express preservation of statutory claims and limitations periods, so the two channels can no longer drift. The Enforcement Appeals paragraph in the Operations and Compliance Manual keeps the existing final-and-binding language for the internal appeal, and adds a preservation carve-out stating that nothing in that section waives any claim the Associate may have under this Agreement or applicable law, or alters any limitations period established by law. The Confidentiality Enforcement Rights paragraph was rewritten to state the substantive remedies in one sentence and to state the fee-shift in a second reciprocal sentence, so recovery of reasonable attorneys' fees and costs in an action to enforce that section runs to the prevailing party regardless of which side brought the action. The Commission Clawback Enforcement Costs subsection was rewritten in the same reciprocal form for actions to collect amounts owed under that section. No substantive rights were removed from any of these sections; each change corrects a facial one-directional statement so the document does not read as reaching for a fee-shift or a claim waiver that the operative rule already denies it.

• **August 17, 2026 · §9, §37, §75:** Unified the internal-appeal filing windows across the three appeal channels to a single thirty-calendar-day deadline. The lead-classification appeal filing window in the Client Ownership section was moved from seven calendar days to thirty calendar days, reflecting that a lead classification determination now controls whether a departing Associate is paid at all under the Post-Termination Compensation Floor, so the shortest window in the document should not be attached to the largest consequence. The enforcement-appeal filing window in the Operations and Compliance Manual was moved from ten business days to thirty calendar days and converted to calendar days for consistency with the other channels. Broker response deadlines in both sections were left as they stood, since a Broker response window is a commitment the Company makes to the Associate rather than a trap the Associate can fall into. The Continued Performance clause in the Commission Structure Addendum was rewritten to use the same language as the Dispute Resolution section, so the scope of ongoing performance during a pending dispute is stated the same way in both places and cannot drift.

• **August 16, 2026 · §15:** Removed mandatory binding arbitration for disputes between the Company and the Associate and replaced it with litigation in Lee County, Florida following mediation. The internal dispute notice process, mediation requirement, jury trial waiver, and class action waiver are unchanged. Arbitration between brokerages under MLS and NAR rules is unaffected.

• **August 17, 2026 · §15:** Appended a severability savings clause to the No Class Actions paragraph so that if any portion of the paragraph is held unenforceable the remainder continues in effect and the unenforceable portion is limited or severed to the minimum extent necessary. Class action waiver substance unchanged.

• **August 17, 2026 · §17, §74:** Rewrote the Force Majeure notice requirement so that the affected party must give written notice as soon as reasonably practicable and in any event within forty-eight hours of the event or forty-eight hours of the ability to communicate being restored, whichever is later, and must submit supporting documentation within five business days of giving initial notice. The Operations and Compliance Manual force majeure section was consolidated to defer to the ICA force majeure section for events, deadline extensions, and notice and documentation requirements, while preserving Broker discretion to extend deadlines beyond the ICA period where circumstances warrant. Removes the previous Manual-side standard that operated on different rules from the ICA.

- **August 17, 2026 · §17:** Added a scoping carve-out to the Force Majeure section stating that the section extends deadlines established by this Agreement and the Incorporated Documents only and does not extend any deadline established by statute, by FREC rule, by an MLS, or by a third party, including reporting deadlines, escrow verification deadlines, and listing submission deadlines, and that the Associate remains responsible for those deadlines and must contact the applicable authority directly regarding any relief. Closes a reading risk that an Associate could believe the section extends deadlines it has no contractual power to reach.

- **August 17, 2026 · §18:** Aligned the Entire Agreement subsection to the full Incorporated Documents list at the beginning of this Agreement and named each Incorporated Document by title and by the numbered section that carries it, so the entire-agreement clause no longer omits documents that the rest of the Agreement treats as part of the whole. Added a new Order of Precedence (General) subsection immediately before the existing Order of Precedence (Compensation Matters) subsection. The new subsection states a ranked order for non-compensation conflicts, adds a specific-controls-over-general rule, defers to any Incorporated Document that expressly states it supersedes this Agreement on a specific topic (as to that topic only), and closes any residual conflict with a Broker written determination that the Associate may contest through the operative dispute-resolution section. The Order of Precedence (Compensation Matters) subsection is unchanged and continues to govern compensation conflicts.

- **August 17, 2026 · §18, Operations & Compliance Manual:** Folded the Manual's previously separate order-of-precedence statement into the Order of Precedence (General) subsection so the document carries a single precedence rule rather than two. Added a later-dated-document tie-breaker to the general subsection for the case where two Incorporated Documents rank equally and neither is more specific. Replaced the Manual's own ranking sentence with a one-line pointer to the operative section, so a reader coming to the Manual is directed to the single controlling statement rather than a second ranking that could drift.

- **August 17, 2026 · §20:** Rewrote the Consolidated Acknowledgment first sentence so the Associate's acknowledgment reaches Incorporated Documents as they exist on the Effective Date and as amended from time to time in accordance with the operative Modification and Notice provision, and added an explicit statement that continued affiliation after notice of an amendment constitutes acceptance of the amended document. The prior wording limited the acknowledgment to the versions in existence on the day of signing, which read against the amendment provision the document already contains. The no-separate-signatures sentence and the Effective Date Definition and Electronic Signatures subsections are unchanged.

- **August 17, 2026 · §6, §21, §22, §34, §35.2, Exhibit A §39, §42:** Aligned the document to its stated architecture that Exhibit A is the single location for every fee amount, split, price, and threshold, with the body of the Agreement and the Commission Structure Addendum stating mechanics only. The Errors and Omissions payment plan threshold sentence in the ICA body was rewritten to reference the threshold set forth in Exhibit A, and the corresponding dollar amount was added as a row on the Administrative and Conditional Fees table in Exhibit A with an explanatory sentence pointing back to the operative section. The reassignment allocation sentence in the Company Assisted Transactions section was rewritten to reference the fixed allocation set forth in Exhibit A, and the corresponding allocation was added as a new subsection in Exhibit A directly under the transaction fee area. The Commission Flow and Application Order paragraph in the Referral-Sourced Transactions section was rewritten so that the referral fee percentage, the

transaction fee, and the split all reference Exhibit A, and the corresponding percentages and allocation were added as a new subsection in Exhibit A directly after the Company Assisted Transaction Allocation. The Purpose and Scope paragraph in the Commission Structure Addendum was rewritten to state that Sections 34, 35, and 36 establish transaction types and deduction order and that all allocations, percentages, and fee amounts live in Exhibit A. The Order of Precedence Within CSA paragraph was replaced with a one-line pointer to the operative order-of-precedence section in the ICA, so the document carries a single precedence statement rather than a duplicate. Limits on Company conduct expressed as percentages remain in place where they appear.

• **August 17, 2026 · §36:** Removed the last remaining numeric shorthand in the Commission Structure Addendum. The Third-Party Referral Network Transactions section previously described the fixed reassignment and referral-sourced allocations by naming a numeric split; that language now names the allocations by reference to the operative Exhibit A subsections, so no percentage token remains anywhere in this Addendum. Substance of the section is unchanged: the fixed allocations still do not apply to Third-Party Referral Network Transactions unless separately triggered by a reassignment event.

• **August 17, 2026 · §63.1, Exhibit A §39.6:** Closed out the last remaining fee-classification residual in the document. Added a Company Lead Transaction Allocation subsection to Exhibit A that carries the fixed allocation for transactions originating from a Company-Generated Lead as defined elsewhere in this Agreement, after deduction of any referral fee and any marketing deduction pre-approved under the Company Leads Addendum. The Lead Ownership and Assignment sentence in the Company Leads Addendum that had described the split by naming a numeric ratio was rewritten to allocate the compensation by reference to the operative Exhibit A subsection, with the referral-fee and marketing-deduction sequencing preserved. Marketing-deduction pre-approval requirement and lead classification pointer are unchanged. No fee amount, percentage allocation, or price classified as a fee, price, split, or threshold now appears outside Exhibit A anywhere in the document.

• **August 17, 2026 · Exhibit A §38.3:** Renamed the Commission Plan Changes paragraph heading that had labeled a plan-change activation date using the same term that the Consolidated Acknowledgment section defines as the execution date of the Agreement, so the two concepts no longer share a heading. The heading now reads Plan Change Activation Date. The Frequency Limit paragraph in the same subsection was updated so its cross-reference to the renamed concept uses the new terminology, and the Downgrade Rule paragraph was updated so its parallel reference uses matching terminology. The paragraph body still states that an approved plan change takes effect on the first day of the calendar month following the Broker's written approval. The Consolidated Acknowledgment definition is unchanged.

• **August 18, 2026 · Exhibit A §39 and §42:** Increased the commercial transaction fee. Replaced the two residential rental transaction fees with a single percentage-based rule applying equally to both sides. Replaced the escalating file completion retention with capped administrative fees and a single percentage fee for late closing documentation, assessed against commission proceeds rather than retained from them. Increased the administrative cost rate. Removed the sign replacement fees and the listing transfer fee.

• **August 18, 2026 · Exhibit A §40:** Broadened the Minimum Commission Allocation scope so it applies to every Associate whose plan gives the Company a percentage share of commission, rather than only to the training-wheels

plan. The scope is now defined by plan structure rather than plan name, so a future plan with a Company percentage share is covered automatically without further amendment. Transactions under a plan in which the Associate receives one hundred percent of commission are excluded, except where the transaction is a Referral-Sourced Transaction. Corrected the unhyphenated spelling of Referral-Sourced Transactions in the same paragraph so it matches the hyphenated form used everywhere else in the document, including the defined-term section and the fee schedule. The two antitrust disclaimer sentences and the minimum allocation table are unchanged; the Associate-absorbs-the-shortfall rule is unchanged.

• **August 18, 2026 · Exhibit A §43.1, §39.2, §39.3:** Capped the administrative fee on incoming third-party referral payments with a firm maximum in addition to the existing minimum, so the fee is bounded on both sides rather than open-ended. Corrected the stale cross-reference in the same subsection so it names the operative allocation location and the correct transaction types rather than the fee schedule subsection and defunct phrasing. Retired the legacy numeric-shorthand references to a fixed split throughout the Company & Rental Transaction Fees subsection and the Referral-Sourced fee schedule subsection so those cross-references now name the allocation by reference to the operative Exhibit A subsection. Substance of every affected paragraph is unchanged; only phrasing was updated to match current architecture.

• **August 18, 2026 · CSA §25:** Added a pointer sentence to the Offsets, Deductions and Withholdings section so it no longer reads as an unlimited-authority provision when read in isolation. The general offset authority remains as before, and the section now expressly states that offsets are subject to the caps, notice requirements, and release deadlines stated in the specific-purpose withholding provisions elsewhere in the document, and that nothing in this section authorizes an offset in excess of those limits. No cap, percentage, or deadline is restated in this section; the limits live in the sections that already carry them. Substance of the general offset authority and the survival-after-termination sentence is unchanged.

• **August 18, 2026 · CSA §24, §25, and §72.2:** Closed two gaps identified in the prior entry's report. Added a sentence to the Commission Application Order section clarifying that the manifest-error accounting-determination rule governs the Company's calculation of a commission and does not waive the Associate's right to dispute that calculation under the operative commission-dispute or general-dispute section, so the finality language no longer reads as foreclosing the appeal window unified elsewhere in the Agreement. Added a definitional paragraph to the Offsets, Deductions and Withholdings section stating when a fine or penalty is attributable to the Associate, using a proportional-fault allocation for multi-party conduct, requiring the Broker to state the basis for attribution in writing at the time of the offset, and preserving the Associate's right to dispute the determination under the operative commission-dispute section. Added a one-sentence pointer to the E&O Defense, Insurance and Offsets subsection so the same attribution standard governs there, without restating the definition. Substance of every affected paragraph is otherwise unchanged.

• **August 18, 2026 · CSA §29:** Made the License Status and Commission Rights section self-contained on the operative consequence of a lapsed, inactive, suspended, terminated, or disassociated license. The section previously stated the continuous-active-license requirement and then handed off with a generic sentence that pointed the reader nowhere specific. It now states the substantive rule directly: compensation is not payable on any transaction in which the Associate performed licensed activity while the license was not active, and commissions earned on transactions

where all licensed activity was performed while properly licensed remain payable and are released when the license is restored to active status, subject to offset. Pointed to the operative acknowledgment section that carries the complete terms. The substantive rule and the acknowledgment section are unchanged; only discoverability improved.

• **August 18, 2026 · CSA §29:** Added a one-sentence reporting-duty pointer to the License Status and Commission Rights section so an Associate reading it can see, without leaving the section, that any change in license status must be reported to the Broker within twenty-four hours, and that the operative acknowledgment section governs. The reporting duty and its deadline live in the acknowledgment section and are unchanged; only discoverability improved.

• **August 18, 2026 · CSA §32 and Exhibit A §44:** Corrected two stale pointer references. The Amendment section of the Commission Structure Addendum and the Enforcement and Application section of Exhibit A both stated that amendments may be delivered by any method set forth in the Definitions section, but the delivery-method mechanics for amendments live in the Notice and Version Control subsection of the Entire Agreement section, added by an earlier entry in this block. Both cross-references now point to that section. Substance of every affected paragraph is otherwise unchanged, including each section's carve-out language for transactions already under contract, which is being held for a separate decision.

• **August 18, 2026 · CSA §34:** Added a written-notice requirement and an appeal path to the Company Assisted Transactions section, bringing the reassignment provision into line with every other Broker-determination provision that now carries a thirty-day appeal window. The Broker must provide written notice to the original Associate at the time of reassignment identifying the transaction, the reason, and the effective date, and the Associate may dispute the reassignment or its compensation consequences under the operative commission-dispute section. Substance of the reassignment authority is unchanged: the reassignment grounds, the finality of the determination, the referral-versus-reassignment distinction, the fixed allocation for reassigned transactions, and the rule that the original Associate is not entitled to compensation upon reassignment all remain as written.

• **August 18, 2026 · CSA §34:** Closed a gap identified in the prior entry's report. Reassignment authority in the Commission Structure Addendum and disciplinary authority in the Operations and Compliance Manual both reach the same underlying conduct on incomplete file management, and neither section stated whether electing one remedy precluded the other. Added a sentence to the notice-and-appeal paragraph clarifying that reassignment and disciplinary action are separate remedies, that the Broker's election of one does not preclude the other, and that the election does not constitute a waiver of any other remedy. Substance of both regimes is otherwise unchanged.

• **August 18, 2026 · CSA §35:** Labeled the opening definitional paragraph of the Referral-Sourced Transactions section as a numbered subsection so the section no longer reads as if a subsection was deleted. The paragraph now carries a Definition and Classification label and an anchor matching the pattern used by the Commission Flow and Application Order subsection. The definition of a Referral-Sourced Transaction, the distinction from a Company Assisted Transaction, and every other paragraph in the section are unchanged in substance and phrasing; only the label and anchor were added.

• **August 19, 2026 · Preamble, §1, §6, §18, CSA §32, Exhibit A §44, §4, §65, §82.2, §89.6:** Held-batch consolidation across three drift areas. First, notice-method statement was consolidated in the Entire Agreement section so the delivery

channels for notice and amendments are stated in one place; the Preamble NOTICE and AMENDMENT paragraph and the Definitions Notice entry no longer restate the list and now point to the operative section, closing the prior drift where one list included text message and one did not. Second, the amendment carve-out for transactions already under contract was aligned across the three sections that carry it, adding buyer brokerage agreement alongside purchase-and-sale agreement and listing agreement in the Entire Agreement section, the Commission Structure Addendum Amendment section, and the Exhibit A Enforcement and Application section, so all three carve-outs cover the same three contract types. Third, four specific-purpose offset provisions inherited the caps, notice requirements, and release deadlines already stated in the Compensation, Referral and Co-Agent Commission Disputes, and Indemnification and Defense Addendum sections through a one-sentence pointer matching the sentence added to the Offsets, Deductions and Withholdings section: the Errors and Omissions retention offset, the two MLS-fine offsets in the ICA body and the Operations and Compliance Manual, the clawback Offset and Payment subsection, and the MLS Fines acknowledgment. No cap, percentage, or deadline is restated in any of these locations; the limits continue to live in the sections that already carry them. Substance of every affected paragraph is otherwise unchanged.

• **August 19, 2026 · §45 (Operations & Compliance Manual Definitions):** Removed two defects in the Definitions block. The Business Day entry had defined the term as a weekday window of hours turning on days a Company office is closed for emergency, while the Independent Contractor Agreement Definitions entry defined the same term as any day other than Saturday, Sunday, or a federal holiday observed by the Company; the Manual entry now points to the Independent Contractor Agreement Definitions section as the single source, so every deadline in the document runs on the same term and no provision reads against a window of hours or a physical-office assumption the Company does not carry. The Abandoned Commission entry was realigned to point to the deadlines stated in the Operations and Compliance Manual and Exhibit A, so it no longer restates triggers that the fee schedule, as later amended, no longer uses; no fee amount or percentage is restated in the Definitions block. Substance of every operative rule is unchanged; only the definition text and cross-references were updated.

• **August 19, 2026 · §49, §87.6:** Removed the continuing-education reporting requirement the Company does not track. The Regulatory Compliance section had required Associates to report continuing-education completion to the Broker at least ten business days before the DBPR renewal deadline, and the Continuing Education subsection of the License Verification and Active Status Acknowledgment had required proof of completion on the same deadline. Continuing education is a DBPR requirement enforced by DBPR; an Associate who fails to complete it is not renewed, and the resulting license lapse is already caught by the twenty-four-hour license-status notification duty and, until superseded by the entry below, the monthly DBPR verification statement in the same acknowledgment. What the Company needs on file is current license documentation, not continuing-education certificates. Both provisions now require the Associate to upload current license documentation to the Company's compliance platform within ten business days of each renewal. The Continuing Education subsection is retitled Continuing Education and License Renewal, states that the Company does not track continuing education, and points to the twenty-four-hour license-status notification duty for any change in license status. The Associate's sole responsibility for completing continuing education and renewing the license on time, and the other subsections of the acknowledgment, are unchanged.

• **August 19, 2026 · Preamble, §18, §59, §62:** Two unrelated defects, both small. First, the Sign Borrowing Policy section had required payment for signs lost, stolen, or damaged beyond use and pointed at a Sign Replacement fee that no longer exists in the fee schedule, so a reader landing there was told to pay a fee the document does not carry. The section now states only that the Company provides open house signs and for sale signs to Associates for professional use and that signs remain Company property at all times; the second paragraph carrying the forty-eight-hour return requirement, the storage obligation, and the immediate loss-or-damage reporting duty is unchanged. Second, one payment carried two names across the document. The section governing the payment to an Associate who recruits a newly affiliated licensee was titled Referral Bonus Policy while its body, and the corresponding fee schedule entry, called the payment the Recruiting Reward. Referral Bonus was also ambiguous against the neighboring section governing incoming third-party client referrals. The section is retitled Recruiting Reward Policy so the title matches the body and the fee schedule, and the two Incorporated Documents listings for the policy in the Preamble and in the Entire Agreement section were updated in parallel. The section anchor is unchanged and the section body is unchanged.

• **August 19, 2026 · §63.2, §70:** Two unrelated defects, both small. First, the service-level subsection of the Company Leads Addendum had stated four measurable requirements — a two-business-hour first-contact deadline, a daily-then-three-times-weekly contact cadence, a per-touch CRM logging requirement, and a forty-eight-hour reassignment trigger tied to logged activity. Every one of those depended on data the Company does not collect: the Company does not operate a CRM for lead activity and does not track contact timing. A performance standard the Company cannot verify is worse than no standard, because an Associate can point to the Company’s own failure to measure as evidence the standard was never enforced. The subsection is retitled Service Expectations and now states, at the altitude the Company can actually observe, that the Associate must contact an assigned lead promptly, work the lead consistently, and keep the Broker informed of status without being asked, and that the Broker may reassign a lead where the Associate has not made contact, has stopped working the lead, or has not communicated status. Reassignment is routed to the Internal Deal Handling and Compensation section, which is the operative source for the grounds, notice, and compensation consequences of reassignment. Lead Ownership and Assignment in the same section is unchanged. Second, the Referrals LLC Policy section of the Operations and Compliance Manual carried a title reading as a policy about the entity, while its one-paragraph body delegated referral compensation rules to the Aari Referrals LLC Referral Compensation Policy. The section is retitled Aari Referrals LLC Referral Compensation so the title matches what the body does. Anchor unchanged; body unchanged.

• **August 19, 2026 · §87.3, §87.7:** Replaced the Broker Verification subsection to remove a forward-looking supervisory commitment the Company was not equipped to keep and to state, in its place, what the Company actually does and where ongoing responsibility rests. The subsection had closed with a sentence committing the Company to a fixed monthly cadence of license verification for all affiliated Associates. That sentence stated a supervisory practice the Company does not currently perform in a scheduled or documented way, which created a standard the Company would be measured against on any dispute involving a lapsed license. The opening sentence confirming DBPR verification through the DBPR online verification system as of the acknowledgment date is unchanged. Two new sentences follow it: the first preserves the Company’s right to check license status whenever it chooses, without committing to a fixed cadence; the second states that ongoing responsibility for keeping the license active, completing continuing education, renewing on time, and providing current license documentation to the Company through the

platform or channel the Broker designates rests solely with the Associate, keying every downstream duty back to the Associate in one place. The Sole Responsibility subsection carried the same fixed-cadence commitment through a carve-out sentence that referred to it as a supervisory measure only; that sentence is rewritten to refer to any verification the Company performs rather than to a fixed cadence, so no reference to a monthly verification commitment survives anywhere in the acknowledgment. The rest of the Sole Responsibility subsection is unchanged, and the twenty-four-hour license-status notification duty subsection is unchanged.

• **August 19, 2026 · §68.1, §68.2:** Three unrelated defects in the Billing and First-Month Waiver Addendum. First, the Recurring Fees subsection had stated the Monthly Brokerage Fee as due on the first day of each month and the first-month waiver as the calendar month in which the Associate onboards; the Company bills on the Associate's onboarding date, not on the first of the month. The subsection now anchors the monthly due date to the Associate's onboarding date rather than the first of the calendar month, keeps the first-month waiver as the first month following onboarding, and adds a rollover sentence for onboarding dates on the thirty-first so that shorter months fall to the first day of the following month. Second, the same subsection was silent on partial billing cycles at termination even though it stated recurring fees as non-refundable; a sentence is appended stating that a fee charged for a billing cycle containing the termination is neither refunded nor prorated, keying the partial-month result to the fee rule that already sits in the same subsection. Third, the Payment Enforcement subsection had listed suspension of system access, change to Inactive status, commission withholding, and termination as immediate consequences of any failed payment, with no notice period and no cure window, creating an exposure to suspending an Associate mid-transaction on a single failed payment. The subsection is rewritten in three paragraphs: the fee consequences of a failed payment (late payment fee, returned payment fee, reactivation fee) apply on the terms stated in Exhibit A; before any suspension, status change, commission withholding, or termination for non-payment, the Company shall provide written notice and allow five business days from the date of notice for the Associate to cure; and only where the Associate does not cure within that window may the Company suspend, change status, withhold subject to the caps stated in the Compensation and Offsets sections, or terminate. Fee amounts and dollar amounts continue to live in Exhibit A; no dollar amount is stated in the Billing and First-Month Waiver Addendum.

• **August 19, 2026 · Exhibit A §41.1, §41.2:** Follow-up from the prior entry's report. The Monthly Brokerage Fee subsection of the Annual and Ongoing Compliance Fees section had restated the calendar-first-of-month billing rule and the first-month waiver in its operative paragraph, and the composite onboarding paragraph in the E&O and Compliance Fee subsection had restated the same rule and waiver a second time, so a reader stopping in the fee schedule reached the pre-amendment rule and Exhibit A's controlling status on fee matters made those restatements override the amended Billing and First-Month Waiver Addendum. Both are now pointers. The Monthly Brokerage Fee subsection keeps only that the fee is set by the Associate's commission plan and routes billing dates, the first month waiver, and the treatment of a billing cycle in which the Associate terminates to the operative section. The composite onboarding paragraph keeps the onboarding due statement, the plan applicability sentence, and the Commission Structure Addendum enforcement pointer, and replaces the waiver and billing-date restatement with a pointer to the operative section together with the plan-rate cross-reference. Fee amounts, the fee tables, and the E&O anniversary-month due date are unchanged; no amount, percentage, or deadline outside those tables is restated in Exhibit A §41.

• **August 19, 2026 · §71.4:** Replaced the Approved Method subsection of the Seller Identity Verification section to remove a dependency on a third-party service the Company has not designated. The subsection had required verification to be completed using a third-party identity verification service designated by the Broker in writing, and had prohibited the Associate from substituting an alternate method without written Broker approval; the Company has not designated such a service, so an Associate encountering a verification trigger had no approved method available and no way to comply. The subsection now states the concrete elements verification must include and requires each to be documented in the transaction file: government-issued photo identification for each record owner compared against the county property appraiser and official records, a live video or in-person meeting with each record owner in which the identification is visible and the person presenting it is the person pictured, and independent confirmation of the seller's contact information through the county property appraiser, tax collector, or official records rather than through contact information supplied by the seller. The Broker's right to designate a third-party identity verification service later is preserved, and where the Broker makes such a designation in writing the Associate must use that service. The prohibition on substituting an alternate method without written Broker approval is unchanged. The other subsections of the section are unchanged.

• **August 19, 2026 · §4, §56, §84.7:** Removed two more instances of the same defect the vendor-dependent seller identity verification rule carried: rules that could not be performed as written because they required a Company designation the Company had not made. First, the Fair Housing Compliance section and the Fair Housing Policy section of the Operations and Compliance Manual both required the Associate to complete a fair-housing training the Company had not designated, with the Manual barring client representation until proof was submitted. The Fair Housing Compliance section now requires the Associate to complete fair-housing training within the same fourteen-day window, states that training offered by the National Association of REALTORS, Florida Realtors, a local REALTOR association, or a Florida-approved continuing education provider satisfies the requirement, and preserves the Broker's ability to designate a specific provider in writing later. The Fair Housing Policy section now points to the Fair Housing Compliance section as the single operative source for the training requirement, so the deadline is stated once and the rest of the Fair Housing Policy is unchanged. Second, the Established Business Relationship subsection of the Telephone, Text, and Electronic Solicitation section had conditioned the exemption on documentation in a customer relationship management system the Company had approved, and the Company had not approved one, so the exemption was unavailable to every Associate. The subsection now requires the relationship, its basis, and the date it arose to be captured in a written record kept by the Associate, requires production to the Broker on request, and preserves the Broker's ability to designate a system of record in writing later. The Third Party Tools subsection is unchanged.

• **August 19, 2026 · §77, §56:** Two unrelated cleanups. First, the Federal Reporting and Anti-Money Laundering Cooperation section was rewritten to remove obligations left over from a federal rule that has been vacated and to remove a pointer to material the Company has not created. The section had required the Associate to identify and report to the Broker any non-financed transfer to a legal entity or trust at contract execution, and had directed the Associate to a page in the Agent Hub for current federal reporting requirements; the identification-and-notice duty existed only because of the vacated rule and produced work the Company had no obligation to act on, and the Agent Hub reference pointed to a page the Company has not created. The section is retitled Federal Reporting Designations and reduced to

the three subsections that protect the Company independent of any specific rule: the Associate has no authority to file any federal report on the Company's behalf, the Associate must not sign or accept any designation agreement that places a federal reporting obligation on the Company or the Associate and must forward any such request to the Broker unanswered, and where a federal reporting or anti-money-laundering requirement applies to a transaction the Associate must cooperate with the Broker, settlement agent, and counsel in gathering the ownership or source-of-funds information required. Anchors for the two removed subsections are retired and the anchor count drops by two; anchors for the remaining subsections stay stable and no other section is renumbered. Second, the Fair Housing Policy section is reduced to a pure pointer for the fair-housing training requirement; the deadline and the client-representation gate that had been repeated there in the prior entry's scoped edit are removed, so both live once in the Fair Housing Compliance section. The compliance-commitment paragraph and the Prohibited Conduct paragraph of the Fair Housing Policy section are unchanged.

• **August 19, 2026 · §78.3(c):** Corrected the Unlicensed Assistant permitted-activities item on transaction documents. The list had allowed an Unlicensed Assistant to prepare transaction documents in a way that on its face contradicted the licensed-Associate template rule in the Broker Execution and Review Addendum, and reached activity FREC treats as unlicensed practice of real estate and, where contract terms are involved, unlicensed practice of law. The intended permission is clerical: pulling the correct form, filling in factual information the Associate supplies, and assembling the package. The item now permits the Unlicensed Assistant to compile and assemble transaction documents, correspondence, and file materials at the direction of the Associate, and expressly forbids selecting, drafting, or modifying any contract term. The other permitted-activities items and the entire prohibited-activities list are unchanged.

• **August 19, 2026 · §81.1:** Added a request path to the Approval Required subsection of the Distressed Property and Creative Financing section, closing the same performability defect that the seller identity verification section, the fair-housing training sections, and the established-business-relationship subsection had before their fixes. The subsection had prohibited the Associate from marketing, negotiating, presenting, or closing six categories of distressed and creative financing transactions without transaction-specific written Broker approval obtained before any offer was presented, and had made violation grounds for immediate termination, without stating how the Associate obtained that approval. A new paragraph now states that the Associate must submit a written request to the Broker that names the property and the parties, describes the proposed transaction structure, and explains why the structure is being used; that the Broker will respond in writing; that approval is transaction specific and must be obtained before any offer is presented, granted or withheld in the Broker's sole discretion; and that silence does not constitute approval. The lettered list of covered transaction categories and every other subsection of the section are unchanged.

• **August 19, 2026 · §55.4:** Added a general no-post-execution-alteration rule to the Prohibited Conduct list of the Broker Execution and Review Addendum. The document previously reached alteration of blank templates through the first item of this list, and reached fraudulent alteration of executed documents through the fraud and misrepresentation entries of the Prohibited Conduct section; it did not reach an innocent post-execution change, and the warranty of unmodified use in the Associate Signature Permitted subsection attaches at the moment of signing and does not carry forward. The new item prohibits altering, completing, or adding to any document after it has been executed by any party, illustrates the reach with common examples, and states that a document requiring change after execution must be

corrected by written amendment or addendum executed by all parties. The four prior items in the list, and every other subsection of the section, are unchanged.

• **August 19, 2026 · §55.3:** Closed a phrasing gap in the arbitration handling rule of the Broker Execution and Review Addendum. The section had used wording that could be read to contemplate a Broker completing the arbitration line after the parties had executed the contract. That is not the Company's practice, and filling a blank field on a contract after the parties have executed it is an alteration of an executed document regardless of intent. The section now states directly that the arbitration line stays blank on the executed contract, that the arbitration provision is not initialed on behalf of the Company by anyone, and that no one completes it post-execution. The prohibition on signing arbitration demands, mediation notices, subpoenas, and legal correspondence, and the twenty-four-hour routing requirement, are unchanged.

• **August 19, 2026 · §4, §54, §61, §89.4, §90.6:** Two follow-up cleanups from the prior entry's report. First, the four remaining document-submission deadline restatements outside the Transaction Documentation and File Submission section were consolidated. The three copies of the listing-agreement upload sentence in the MLS Compliance subsection, the MLS and Brand Standards Addendum, and the MLS Rules Acknowledgment Listing Submission subsection were consolidated to the MLS and Brand Standards Addendum as the single operative location for the listing-agreement upload rule; the other two now point to that section. The blanket restatement inside the Record Retention and Confidentiality section, and the buyer-brokerage-specific restatement inside the Buyer Brokerage Agreement Policy Acknowledgment's Broker Submission subsection, both now point to the Transaction Documentation and File Submission section for the deadline. Second, appended a one-sentence pointer to the Compliance and Document Submission Addendum's consequences paragraph so a reader who stops there sees that release of withheld amounts after cure is governed by the Transaction Compliance section, without restating the release deadline. No cap, percentage, or deadline is restated in any of these locations; every operative deadline continues to live in the section that already carries it.

• **August 19, 2026 · §53, §54:** Consolidated the document submission deadline in the Transaction Documentation and File Submission section so that section is the only location stating the upload window and the pre-closing complete-file window. The Transaction File Requirements section had restated both deadlines in a paragraph labeled Submission Deadline, and the Compliance and Document Submission Addendum section had restated the upload window in both its opening sentence and its modification-timing sentence. All three restatements were replaced with pointers to the Transaction Documentation and File Submission section. Content unique to those sections was preserved unchanged: the Transaction File Requirements section retains its five-year record retention requirement and its statutory citations, and the Compliance and Document Submission Addendum section retained (until superseded by the entry below) its rule requiring modifications to be executed by all parties prior to the original expiration date and its consequences list. No cap, percentage, or deadline is restated in either section; the operative deadlines continue to live in the section that already carries them.

• **August 19, 2026 · §50, §54:** Retired the Compliance and Document Submission Addendum section as a stand-alone provision. The two rules that had remained unique to it after the prior entry — the requirement that any modification to a transaction be executed by all parties prior to the original expiration date, and the consequences of non-compliance

list — were moved into the Transaction Documentation and File Submission section, which was already the operative source for submission mechanics. The consequences paragraph as moved carries a pointer to the Transaction Compliance section for release of withheld amounts after cure and a pointer to Exhibit A for fees applicable to late or incomplete submissions, so a reader stopping in the Transaction Documentation and File Submission section reaches those two mechanisms without leaving the paragraph. The former Compliance and Document Submission Addendum section was converted to a reserved marker that keeps the section number and anchor in place and points readers to the operative section; the section number was not reused and no other section was renumbered, so every anchor at and above that section remains stable.

• **August 19, 2026 · §52:** Rewrote the Prohibited Conduct list to close a shape mismatch and add three exposures that had no counterpart in the document. The prior list included a flat entry designating any failure to submit transaction documents or respond to Broker requests within required timeframes as a material breach, which on its face treated a single late upload as grounds for immediate termination even though a single late upload is a fee-per-occurrence and withhold-and-release matter under the Compensation section and the fee schedule. That entry now reaches only repeated or willful failure after written notice, and expressly points to the Compensation section and the fee schedule for the single-occurrence path. Three prohibitions were added to catch the exposures that had no counterpart: providing legal, tax, or accounting advice to a client rather than referring the client to a qualified professional; accepting or retaining compensation in excess of the amount stated in an executed buyer brokerage agreement or listing agreement without a written amendment; distressed and creative financing transactions without transaction-specific written approval; and telemarketing conducted without documented prior express written consent where required by federal, Florida, or do-not-call rules. Each new prohibition is stated at the list altitude only; the full operative rules live in the sections that already carry them, and no fee amount or percentage is stated in this section.

• **August 19, 2026 · §51:** Conformed the Broker Review and Contract Execution section to the signing-authority rule stated in the Broker Execution and Review Addendum. The first sentence had continued to require Broker approval before execution of the same document types the Addendum authorizes the Associate to execute on the Company's behalf, so an Associate reading it alone reached the opposite result of one reading the Addendum. The first sentence now carves out the categories the Addendum authorizes, makes clear those documents may be executed without prior Broker approval and are submitted for review after execution, and keeps the flat before-execution requirement for every other document. The second and third sentences, which already deferred to the Addendum, are unchanged, and the upload deadline for review continues to run under the Transaction Documentation and File Submission section.

• **August 19, 2026 · §45, §46, Exhibit A §42:** Three follow-up cleanups. First, the Good Standing entry in the Operations and Compliance Manual Definitions block was replaced with a pointer to the Compensation section of the Independent Contractor Agreement, which carries the longer operative formulation; the two prior formulations had drifted on DBPR naming, auto-insurance additional-insured language, and a file-completion clause, and this consolidation makes a Good Standing determination the same in every context in which it is applied. Second, the cost-allocation cap that had lived in the Commissions and Collections section of the Operations and Compliance Manual, keyed to a commission-share threshold, was moved to a new Administrative Cost Allocation subsection under the Administrative and Conditional Fees section of Exhibit A, together with a pointer added to the Commissions and

Collections section so it references the Exhibit A cap without restating it; the substantive rule is unchanged, and this brings the plan-share threshold and the cap percentage inside the single-source location for commission plans, splits, fees, pricing, and thresholds. Third, no other change to any operative rule.

• **August 20, 2026 · §3, §38.2, §38.3, §88.2:** Four connected changes across the plan change gate, the affiliated services model, and the affiliated business disclosure. First, rewrote the eligibility sentence of the Commission Plan Changes subsection so the closed-transaction count measures the readiness the plan change is meant to gate. The prior sentence had set the bar at a fixed number of closed residential sales with only rentals and vacant land carved out; the count therefore included transactions in which the Associate was not the source of the client and had not supervised the deal to closing on their own, which is not what a plan change from the supervision-heavy Mentorship Path is supposed to measure. The number is lowered to reflect the tighter definition, and three categories of transactions that do not demonstrate independent competence are added to the exclusion list alongside rentals and vacant land: transactions in which the Associate, spouse, or a controlled entity is a principal on title; transactions originating from a Company-provided lead; and transactions in which another agent ran the deal and the Associate earned only a referral fee. The three added exclusions point to the sections that define each term. Each qualifying transaction must be closed with a fully compliant and completed transaction file under Broker supervision at Aari Realty LLC. Second, added a Transaction Coordination paragraph to the same subsection stating that until the Associate has completed the qualifying transactions the Associate must use the affiliated transaction coordination entity on every transaction, that the coordination fee is the Associate's responsibility and is deducted from commission proceeds at closing, that no coordination charge is passed through to the client, that use of a transaction coordinator becomes optional after the third qualifying transaction unless the Broker requires it in writing for a specific transaction, and that fees are published in the affiliated entity's rate schedule so no amount is restated in the Agreement. Third, added a monthly service credits paragraph to the Commission Plan Selection subsection stating that Associates on any commission plan in which the Company receives a percentage share of commission receive a small monthly allotment of credits redeemable for a defined set of transaction services performed by the affiliated entity, that credits do not roll over and expire at the end of the month in which they are issued, that credits do not apply to transaction coordination, that additional services are available at the affiliated entity's published rates, and that Associates on the plan in which the Associate receives one hundred percent of commission receive none. Fourth, conformed the Transaction Coordination paragraph in the Associate Responsibilities section so its description of the affiliated entity matches the new mandatory-then-optional posture, states that the Associate bears the cost, and states that the client is not charged; the prior sentence had described full transaction coordination as elective at a published fee. Fifth, replaced the Client Disclosure Required subsection of the Affiliated Business Disclosure section with a Nature of the Relationship subsection that describes the affiliated entities correctly: the affiliated transaction coordination entity contracts with Associates, not with clients, and no client is referred to, charged by, or required to use any affiliated entity for any settlement service; the affiliated referral entity receives inbound referrals from outside licensees and any referral fee is paid from Company or Associate compensation rather than from any client. The subsection preserves and clarifies the written Affiliated Business Disclosure duty: the Associate must provide the disclosure to each client at or before the time a representation agreement is signed and obtain the client's signature, and the disclosure is provided as a matter of Company policy rather than as a referral-conditioned disclosure. Every other paragraph of the plan changes subsection — the written

request, the five business day Broker response, the sole discretion standard, the Plan Change Activation Date, the Transaction Protection rule, the sixty day frequency limit, and the Downgrade Rule — is unchanged. The remaining subsections of the Affiliated Business Disclosure section are unchanged. No other section is amended by this entry.

• **August 20, 2026 · §76.7, §81.5, §91.7, §91.9:** Four defects across the Escrow Deposits section, the Distressed Property and Creative Financing section, and the Wire Fraud and Cybersecurity Acknowledgment, three of them the same shape corrected in the Prohibited Conduct list earlier. First, the Material Breach subsection of the Escrow Deposits and Client Funds section had designated any violation of the section as a Material Breach carrying immediate termination and reporting to DBPR; the section covers absolute-prohibition rules and process rules together, so a late upload of written escrow confirmation had, on the face of the document, the same consequence as taking possession of client funds. The subsection is rewritten to scope the Material Breach tier to the absolute prohibition on handling client funds and the same-day duty to notify the Broker where written confirmation is not received by the deposit deadline, and to route violation of any other subsection to the general Transaction Compliance process, with termination available where repeated or willful. Second, the Violation subsection of the Distressed Property and Creative Financing section had designated any violation of that section as grounds for immediate termination, sweeping in the wholesaler-messaging restriction, the approval-request procedure, and the conditions attached to any approval; the provisions that warrant that consequence are the underlying approval requirement itself and the failure to satisfy any condition of an approval. The subsection is rewritten to reserve immediate termination for engaging in a covered transaction without prior written Broker approval or failing to satisfy any approval condition, and to route violation of any other subsection of that section to the general compliance process, with termination available where repeated or willful. Third, in the Wire Fraud and Cybersecurity Acknowledgment, the Device Security subsection had required the Associate to use a virtual private network or equivalent security measure when accessing client files, MLS systems, or transaction platforms on unsecured public wireless networks; the Company does not provide, designate, or verify any such tool, so the Associate had a rule with no supplied means of compliance and no way for the Company to enforce it. The subsection is retitled Device and Network Security and rewritten as a prohibition on accessing, transmitting, or storing client files, transaction documents, or financial information over an unsecured public wireless network, together with a general responsibility for device security stated in terms the Associate controls, including current operating system updates, device passcode or biometric lock, and secure storage of credentials. No specific vendor, tool, or service is named. Fourth, in the same Acknowledgment, the Consequences of Violation subsection had designated violation of any provision of the Acknowledgment as an immediate termination event, sweeping the email account requirement and the device security rule into the same tier as the wire fraud prohibition, so an Associate who checked email on an unsecured network had, on the face of the document, committed a termination offense. The first sentence is replaced with a scoped list that ties immediate termination to the wire instruction prohibition, the screenshot and attachment prohibition, the client warning obligation, the suspicious activity reporting duty, and the incident response protocol. Violation of any other subsection is routed to the general compliance process in the Independent Contractor Agreement Transaction Compliance section and the Operations and Compliance Manual, with termination available where the conduct is repeated or willful. The personal liability sentence that follows is unchanged.

• **August 20, 2026 · §80:** Comprehensive overhaul of the Property Management and Rentals section, closing gaps identified in a legal audit against six governing points. First, rewrote the Prohibited Activity subsection to state an

absolute bar on Associates performing property management in any form while affiliated with the Company — not under the Company’s name, not under the Associate’s own name, not through a spouse or family member, and not through any entity the Associate owns, controls, or is affiliated with — and cited the Florida licensing statute and the unlicensed-activity statute as source authority. Preserved two carve-outs: Associate-owned property strictly for the Associate’s own account under the tightened conditions in the Associate Owned Rentals subsection, and a specific engagement the Broker approves in writing that runs through the Company with the Broker as signatory. Second, expanded the Funds subsection to identify rents, security deposits, prepaid rent, pet fees, application fees, and other tenant funds as trust funds under the FREC escrow rule and the Florida Residential Landlord and Tenant Act, and to state that the Company holds no trust account for tenant funds and the Associate may not accept or route any tenant funds under any circumstance. Third, tightened the Associate Owned Rentals subsection with four conditions attached to the carve-out addressing branding, fund routing, third-party compensation, and holding out as a property manager. Fourth, scoped the Material Breach subsection so immediate termination and DBPR reporting apply to the prohibited-activity subsection, the funds subsection, the new community association management subsection, and unlicensed-activity findings under the Florida statute, and routed other violations to the general compliance process. Fifth, added a Compensation Flow subsection stating that all compensation the Associate earns from leasing or tenant procurement flows through the Company under the Compensation section and Exhibit A, and that direct payment from any owner, tenant, or third party is a Material Breach. Sixth, added a Community Association Management subsection identifying community association management as a separately licensed activity under the Florida community association management chapter, confirming that a real estate license does not authorize it, prohibiting the Associate from performing the activity or holding out as a community association manager without a current active license conducted outside the Company brokerage relationship, and requiring written disclosure to the Broker at the outset of any such engagement. Subsections one through three of the section, the lease commission timing subsection, and the definition of property management are unchanged. Anchor count increased by two for the two new subsections.

EXECUTION

By executing this Agreement, the Associate acknowledges that they have read, understand, and agree to all terms and conditions set forth in this Independent Contractor Agreement and all Incorporated Documents. Electronic signatures shall have the same force and effect as original signatures under Florida's Uniform Electronic Transactions Act (Chapter 668, Florida Statutes).
